NOTE 2.—In view of the importance of legible handwriting in the public service, deductions which may be of considerable amount will be made from the marks of candidates whose handwriting is not easily legible.

NOTE 3.—In valuing the work of the candidates the Civil Service Commissioners will give credit for good English in all the 54 subjects of the examination, and not only in subjects 1 and 2 which are specially devoted to the language. No. 67 Marine—The 17th July 1922.—The following draft of a Notification which, in exercise of the power conferred by section 10 of the Indian Merchant Shipping Act, 1859 (Act I of 1859), the Governor in Council proposes to issue is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 27th August 1922, and any objection or suggestion with regard thereto, which may be received by the undersigned before that date, will be duly considered.

Draft Notification.

In exercise of the power conferred by section 10 of the Indian Merchant Shipping Act, 1859 (1 of 1859), and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to make, in suppression of the previous rules on the subject, the following rules for the conduct of examinations for masters and mates of foreign-going ships and home-trade ships and regarding the qualifications to be required.

H. E. SPRY,

Secretary

to the Government of Bengal (Offg).

REGULATIONS RELATING TO THE EXAMINATION OF MASTERS AND MATES.

CHAPTER I.

GENERAL RULES.

1. **Authority for Regulations.**—These regulations are issued in pursuance of Act I of 1859, as amended by Act V of 1883.

By sections 9 and 10 of that Act provision is made for holding examinations for the grant of certificates of competency and power is given to the Local Government with the sanction of the Governor-General of India in Council to make rules for the conduct of such examinations and the qualifications of the applicants.

In accordance with section 13 of the same Act no foreign-going ship* or home-trade ship* of a burden exceeding 300 tons is allowed to go to sea from any port in India, unless the master and one officer besides the master have obtained and possess valid and appropriate certificates either of competency or service under that Act or under the Merchant Shipping Act, 1894, and whoever, having been engaged to serve as Master or Mate, goes to sea as aforesaid as such Master or Mate, without being at the time entitled to and possessed of such a certificate, and whoever employs any person as such Master or Mate without ascertaining that he is at the time entitled to and possessed of such certificate is, for each such offence, liable to a penalty of Rs. 500.

For rules for the examination of candidates for certificates of competency as Master and Mate of home-trade sailing-vessels exceeding 300 tons, but not exceeding 1,000 tons burden, see the rules in Appendix N.

2. **Examination of Former Enemy Aliens.**—No "former enemy alien" may be examined for a certificate of competency of any grade.

The expression "former enemy alien" means an alien who is a subject or citizen of the German Empire or any component state thereof, or of Austria, Hungary, Bulgaria, or Turkey, or who, having at any time been such subject or citizen, has not changed his allegiance as the result of the recognition of new states or territorial rearrangements or been naturalised in any other foreign state or in any British Possession in accordance with the laws thereof, and when actually resident therein and does not retain according to the law of his state of origin the nationality of that state.

3. **Examination of Aliens.**—No alien may be examined for a certificate of competency as Master or First Mate in the Foreign or Home or Coasting Trade unless he has

* "Foreign-going ship" includes every ship employed in trading between any port of the territories which are or may become vested in His Majesty by the Statutes 21 and 22 Vic., C. 106, entitled "An Act for the Better Government of India," and any port or place not in the said territories, nor on the Continent of India, nor in the Straits Settlements, nor in the Island of Ceylon; and "Home Trade Ship" includes every ship employed in trading between any ports of the said territories, or between any port of the said territories and any port or place on the Continent of India or in the Straits Settlements or in the Island of Ceylon.

acted as a Master, Chief Officer or Chief Engineer of a British ship or as Skipper or Second Hand of a British fishing boat at any time during the War, and is certified by the Admiralty to have performed good and faithful service in that capacity.

4. Time and place of examinations.—The times and places at which examinations are held are shown in Appendix A.

5. How to apply.—Candidates for examination must fill up a form of application (Form Exn. 2) at the Port Office. The form, properly filled in, together with the candidate's testimonials and discharges, must be lodged with the Port Officer, Calcutta, not later than the day before the day of examination; and the candidate must conform to any regulations in this respect which may be laid down by the Local Government. The discharges and testimonials should be handed in, together with the form of application, as many days as possible before the date of the examination which the candidate desires to attend. In the absence of the necessary verification the candidate cannot be examined.

The Examiner should be particularly careful to ascertain that there are no gaps in the candidate's service which are not properly accounted for, before he is allowed up for examination.

6. Proof of Nationality.—Every candidate for a certificate of competency of any grade will be required to produce proof of nationality. Proof of British nationality will, in ordinary circumstances, involve the production of a birth certificate or of a certificate of naturalisation. If an applicant for examination cannot produce such certificate he should be asked to furnish such documentary evidence of nationality, or of birth and nationality of parents, as he may be able to obtain, and, if necessary, the case should be referred to Government for consideration.

If the applicant is not a British subject, he will, as a rule, be able to produce some official document testifying to his nationality. If there is any doubt as to the authenticity of such document, the Port Officer should consult the nearest consular officer of the nation to which the applicant belongs. If necessary, the case should be referred to Government for consideration.

7. How to apply in special cases.—In cases where a candidate is in doubt whether his service complies with the Regulations, and wishes to submit his case for special consideration, all certificates, discharges, and testimonials, together with the form of application,* properly filled in, should be submitted to the Port Officer. If necessary, the officer will, after seeing that all the required information is clearly set forth in the papers, forward them with his observations to the Local Government for decision.

8. Inquiries.—All other inquiries regarding examinations should be made and dealt with in the same way. The point on which information is sought should be clearly stated, and certificates, discharges, testimonials, etc., should always be forwarded with the inquiry.

9. Nature of service determined by actual position on board ship.—Sea service, in the foreign or home trade, cannot be regarded as qualifying for examination for certificates of competency unless it can be verified by reference to the articles of the ship on which it was performed, e.g., service claimed by testimonial or otherwise to have been as Mate when the actual rating as shown by the articles was only that of boatswain or other petty officer will not be accepted where officer's service is required. Where service as First (or Second) Mate is required to qualify for examination the candidate must actually have held the executive position next (or next but one) to the Master.

Candidates who represent themselves as having served in a higher capacity than that actually held in the ship render themselves liable to prosecution.

In this connection examiners should remember that it has been a common practice for officers to be rated on ship's articles as "Second Mate," although in reality they were only Third or Fourth Mates and acted in one of those positions on board ship.

In every case where a candidate for a Master's certificate of competency claims service as Second Mate, he should be requested to make a declaration in Divn. H of the Form Exn. 2*, to the effect that during his service as Second Mate he had only one officer over him, or if more than one, that a Third and Fourth Mate were also carried.

If the service claimed is as "auxiliary Second Mate" the candidate should be required to state the number of officers serving in a junior capacity.

A candidate with First Mate's service should make a declaration that he was the senior officer under the Master, or if not, he must comply with the requirements of rule 88, as it has been found that in some cases the Second Mate has been signed on the articles as First Mate, the proper First Mate being called chief officer simply for examination purposes.

It must be clearly understood that the amount of service laid down in the Regulations for each grade of certificate of competency is the absolute minimum that can be accepted, and unless a candidate can show the full amount he must in no case be allowed up for examination.

10. Testimonials required.—Testimonials to character, including sobriety, and to experience and ability, on board ship for at least the last twelve months of sea service preceding the date of application to be examined, will be required of all candidates, and without producing them no person will be examined.

*Form Exn. 2, which can be obtained at Port Office.

11. Penalty for misconduct.—Candidates who have neglected to join their vessels after having signed articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct on board, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Local Government, after having investigated the matter, should see fit to reduce the time.

12. Deafness and other physical and mental disabilities.—If during the progress of the examination the examiner finds that a candidate is afflicted with deafness, with an impediment in his speech, or with some other physical or mental infirmity, and he is satisfied upon further investigation that the degree of deafness or of the impediment or other infirmity is such as to render the candidate incompetent to discharge the ordinary duties of a Mate or Master at sea, he should not allow the candidate to complete his examination and should return his examination fee; but every case in which this action is taken must be reported to the Port Officer.

If the candidate subsequently produces a medical certificate to the effect that his hearing, speech, or physical or mental condition has improved or is normal, the Port Officer will take into consideration the question of allowing the candidate to sit again for examination.

13. Foreigners must know English.—Foreigners must prove to the satisfaction of the examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel. If a candidate fails for ignorance of the English language he will not be re-examined until after a lapse of six months. In the case of candidates for Home Trade certificates, the certificates of Asiatics who may not be able to speak English shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

14. Issue of certificate.—If the candidate passed he will receive a form (Form Exn. 16) authorising the Port Officer to whom it is addressed to issue the certificate. It is, therefore, important that the port at which the certificate is to be issued should be the same on both the form Exn. 16 and the Form Exn. 2. If circumstances should make any alteration necessary, the examiner should see that it is made in both forms, otherwise delay in the issue of the certificate may be caused.

15. Service found to be insufficient.—If after a candidate has passed the examination it is discovered on further investigation that his services are insufficient to entitle him to receive a certificate of the grade for which he has passed, the certificate will not be granted to him; but if the Local Government is satisfied that the error in the calculation of the candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him or have it placed to his credit. Should his services entitle him to a certificate of a lower grade it may be granted to him, and the difference, if any, between the fee paid by him for the superior certificate and the fee payable for the inferior certificate will be returned to him or placed to his credit. The superior certificate will not be granted until the candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects, unless the Local Government see fit to dispense with the re-examination.

16. Failure in Examination.—In all cases of failure the candidate must be examined anew. If a candidate fails in Seamanship he will not be re-examined until after a lapse of six months. Whether the whole or part of this period must be served at sea must depend upon the subjects in Seamanship in which the candidate failed, but the amount of further sea service to be required will be left to the discretion of the examiner.

17. Examiner's Report.—The examiner, in making his report on his Form Exn. 14, should state what amount, if any, of further sea service the candidate must perform, and he should also insert this information in the Form Exn. 2.

18. Failure in Navigation.—If a candidate fails three times in Navigation within three months, he will not be re-examined until after a lapse of three months from the date of the last failure.

19. Candidates failing may be examined for certificate of lower grade.—If a candidate fails in his examination for a foreign-going certificate, and the subjects in which he has failed are not included in the syllabus prescribed for a certificate of a lower grade, he may, if he so desires, be examined for the lower grade certificate without further formal application or payment of fee, but he will be required to complete the whole of the work prescribed for such lower grade.

No part, however, of the fee he has paid will be returned to him, and on presenting himself, when qualified, for re-examination for the higher certificate, he will be required to pay again the full fee for the examinations.

20. Failure in Seamanship.—If a candidate fails in Seamanship so far as regards the management of square-rigged sailing vessels, in his examination for an ordinary certificate, he may, if qualified as to service, without further formal application or further payment of fee proceed with the examination for a certificate of competency for foreign-going steamships, or for fore-and-aft rigged vessels.

21. Fee always paid first.—Candidates for examination, in making their application on Form Exn. 2, will be required to pay the examination fee before any step is taken in the way of inquiring into their services or testing their qualifications. If the candidate

is found not to be eligible the fee will either be returned to him or placed to his credit until he is eligible.

22. **Where to pay fees.**—The fee for examination must be paid to the Port Office. If a candidate offers a gratuity to any officer of the Department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be again examined for twelve months either at the port where the offence was committed, or at any other port.

23. **Fee not returned on failure.**—If a candidate fails to pass the examination no part of the fee will be returned to him.

24. **Table of fees.**—The fees are as follows :—

25. **Copy of Lost Certificate.**—An applicant for a certified copy of a lost Certificate either of Competency or Service, must fill in a form of application, Exn. 23, giving the particulars required, and hand it to the Port Officer of Calcutta. A declaration as to the circumstances in which the certificate was lost must be made by the applicant before the Port Officer who will state thereon whether a fee is to be charged or not, and will forward a certified copy of the lost certificate to the applicant.

No fee will be charged if the applicant can prove that the certificate was lost through ship wreck or fire.

26. **First Aid to the Injured.**—(a) Every candidate for a Certificate of Competency of any grade as Master or Mate will be required to produce a certificate issued by the St. John's Ambulance Association, the St. Andrew's Ambulance Association, the St. Patrick's Ambulance Association, the British Red Cross Society, the London County Council, the Glamorgan County Council, the Leith Nautical College or other approved body or by a Medical Officer of one of His Majesty's ships, to the effect that he has passed examination in First Aid to the injured.

(b) The certificate must be an adult certificate, i.e., obtained by the candidate when sixteen years of age or more, and the examination for it must have been passed not more than three years before the date of the examination for the certificate of competency. Certificates issued by the St. John's Ambulance Association more than three years before the examination for a certificate of competency will, however, be accepted, provided that, at the expiration of three years since its issue, the certificate has attached to it the "Voucher" or "Label" of the Association certifying that the holder has passed re-examination in First Aid.

(c) If a candidate does not possess such a certificate of proficiency in First Aid he should apply some time before he wishes to sit for examination for a certificate as Master or Mate to the local secretary of one of the approved Associations, who will inform him of the available facilities for the instruction and examination of candidates in First Aid. A list of the names and addresses of the local secretaries of the Associations is given in Appendix C.

(d) Besides the courses of instruction which are provided on shore at the ports in the United Kingdom, at which examinations for certificates as Master and Mate are held courses of instruction given by qualified surgeons on board merchant vessels will be accepted by the St. John's Ambulance Association as qualifying the candidate for examination for their certificate of proficiency in First Aid, provided the surgeon certifies that he has followed the syllabus of instruction laid down by the Association.

(e) The St. Andrew's Ambulance Association will also accept instruction by a ship's surgeon on board ship as qualifying a candidate for examination for their certificate of proficiency in First Aid, provided their syllabus is followed. In this case the candidate must previously have enrolled and obtained an attendance card, by applying to the local secretary of the Association, or to the head office at 176, West Regent Street, Glasgow.

(f) It will not be necessary for the candidate for a certificate as master or mate in all cases to produce the formal certificate of proficiency in First Aid issued by the Associations. In order to prevent delay in proceeding with the examination for the certificate as Master or Mate and in the issue of the certificate to successful candidates, the special Mercantile Marine linen certificate issued by the St. John's Ambulance Association and duly signed by the Lecturer, the Surgeon Examiner, and the Association's local representative, or, in Scotland, a certificate signed by the Local Examiner of the St. Andrew's Ambulance Association, to the effect that the candidate has passed the examination for a certificate of proficiency, may be accepted as showing that the candidate possesses the required knowledge of First Aid.

27. **Sight tests.**—(a) Every candidate for a certificate of competency must pass the prescribed sight tests before a certificate can be issued to him. If circumstances render it necessary for him to proceed with the examination in navigation and seamanship before undergoing the sight tests, he should be informed that the examination in navigation and seamanship will be cancelled in the event of his failure to pass either of the sight tests.

(b) **Form vision test.**—Every candidate for a certificate must pass the form vision test. If he obtained a certificate of competency before January 1st, 1914, he will only be required to possess half normal vision using both eyes together. Otherwise he must pass a higher standard, viz., normal vision using both eyes or either eye separately.

Any candidate who has obtained his first certificate under these conditions may obtain his higher certificates, provided that he has normal vision using both eyes or either eye separately.

Detailed information with regard to the conduct of the examination and the standards required is contained in Appendix I.

(c) **Colour vision test.**—Every candidate must undergo the colour vision test on every occasion on which he presents himself for examination for his first certificate of competency; but, if he then passes, he will not be required to undergo the colour vision tests on any subsequent occasion.

No person who holds a certificate of competency should be examined in colour vision.

(d) A candidate who fails to pass the prescribed form vision test may present himself for re-examination at intervals of three months. A candidate who fails to pass the colour vision test cannot be re-examined. In the case of a candidate who is referred for further examination the Port Officer will make arrangements for a special examination. It is also open to any candidate who is adjudged to have failed in the colour vision test to appeal to the Local Government, who may, if they think fit, remit the case to a special body of examiners for decision.

(e) The Local Government will repay, at a rate which will be notified to the candidate, the travelling expenses of and candidate who is referred for further examination, as well as the travelling expenses of any candidate who, having appealed against failure, is reported by the special examiners to have passed. No payment whatever will be made towards the expenses of candidates who, upon their own application, are examined by the Special Examiners, and are reported by them to have failed, unless the Local Government consider that the particular circumstances of the case justify such payment.

(f) When a candidate fails to pass the colour vision test, the examiner will point out to him the conditions under which he can appeal. Appeals are to be made through the Port Officer, and forwarded to Local Government with the Examiner's remarks.

(g) Only Examiners who have themselves passed the colour vision tests are to undertake the local examinations.

(h) The fee paid for examination for a certificate of competency includes the fee of two rupees for examination in form and colour vision, and if the candidate fails to pass those tests, this fee will, with the exception of two rupees, be returned to him.

(i) No additional fee will be charged to any candidate referred for special examination, but a candidate who appeals against failure will be required to pay a special fee which will be returned to him if he passes the special examination. If a candidate, who has been reported by the Special Examiners as having failed, is still dissatisfied, it will be open to him, if he so desires, to present himself for a second special examination on payment of a fee of rupees seventy-five, provided that he brings with him a friend to witness the examination.

This second examination will, however, be entirely voluntary, and will form no part of the examination for a certificate of competency. The Local Government will, however, give consideration to the result of such examination in determining whether a certificate shall be granted.

The sight tests are open to all persons serving or intending to serve in the Mercantile Marine or in fishing vessels, and all such persons recommended to take the earliest opportunity of ascertaining whether their vision is such as to qualify them for service in that profession. Any such person, if desirous of undergoing the tests, must make application to the Port Officer, on the Form Ecn. 2a, and must pay a fee of two rupees.

This fee will be payable on each occasion on which a candidate is examined.

Special Regulations relating to the examination of Masters and Mates to apply only where the candidate has served an apprenticeship in an approved sea-going training ship, with a view to promotion in the service of the Company to which the training ship is attached.—(1) The training ship must be a sea-going cargo-carrying square-rigged sailing vessel, and the course of study and practical training which the cadets receive must be approved by the Local Government.

At the end of four years' service in the training ship the cadet will be qualified for examination for a certificate as Second Mate, provided (a) he can produce a testimonial to the effect that both his conduct and his ability have given satisfaction during the whole period, and (b) that he has served *at sea* for not less than four-fifths of the time, that is to say, has not spent more than one-fifth of the time in home ports, *cf.* rule 104.

If the cadet has served previously for two years in either the "Conway" or the "Worcester" training ship, this time will be allowed to count as one year's qualifying service (*cf.* rule 100), and he will be required to serve for 3 years only in the Company's training ship before he can be allowed up for examination for a certificate as Second Mate (ordinary).

(2) A candidate who has served for four (or three) years on the training ship may be allowed up for examination for a certificate as First Mate (ordinary) when he has served, whilst holding a certificate as Second Mate, *for two years as junior bridge-keeping officer of the watch* upon vessels of the Company satisfying certain requirements [*see* sub-rule (4)]. The words "junior bridge-keeping officer" must be interpreted as meaning the junior of *two* bridge-keeping officers. Where three officers are on the bridge together, the service of the third does not fall within the scope of the Special Regulations, and his service cannot be accepted as qualifying. All cases where cadets, to whom these special regulations apply, subsequently present themselves for examination for First Mate or Master must be referred to the Port Officer so that their real position on board vessels of the Company satisfying the requirements of this rule may be verified by reference to the official logs before they are accepted as eligible for examination.

(3) A candidate who has obtained a certificate as First Mate in the above way may be allowed up for examination for a certificate as Master (ordinary) when he has served for eighteen months whilst holding the Certificate as First Mate, as a senior watch-keeping officer upon vessels of the Company satisfying the same requirements [*see* sub-rule (4)].

If the candidate has served for eighteen months as senior of the junior officers, *i.e.*, the officer next below the junior of the officers in full charge of the watch whilst holding the certificate as First Mate, he may be allowed up for examination for a certificate as Master (ordinary) on the understanding that the certificate as Master would not be issued to him until he had completed twelve months' service as a senior watch-keeping officer, the service in both cases to be performed on vessels satisfying the same requirements [*see* sub-rule (4).]

(4) The special regulations (sub-rules 2 and 3) in regard to the acceptance of service as qualifying for the examinations for certificates as First Mate and Master shall apply only when the service is performed in the specified capacities upon ocean-going steamers of not less than 8,000 tons gross, making an average speed of 15 knots or upwards and carrying a crew of not less than 130 men, including at least five deck officers besides the Master.

In other respects the qualifications for examination for such certificates are the same as for Ordinary certificates.

The examinations for the grades of Second Mate, Only Mate, First Mate, and Master, of fore-and-aft rigged vessels will be precisely the same as for the Ordinary certificates, excepting that in seamanship a knowledge of the management of square-rigged vessels is not required.

A certificate for fore-and-aft rigged vessels will not entitle the possessor to act in any case in which a certificate for square-rigged vessels is required. Amongst square-rigged vessels are classed full-rigged ships, barques, brigs, barquentines, brigantines, and steamships carrying square sails.

A candidate possessing a certificate for fore-and-aft rigged vessels, and desiring to be examined for an Ordinary certificate, must prove that he has served *at sea* at least one year in a square-rigged sailing vessel, unless he has previously held an Ordinary certificate of a lower grade.

42. All the qualifying service prescribed for these certificates may have been performed in steamships.

These certificates will entitle the holders to go to sea as Masters or Mates of foreign-going steamships, but will not entitle them to go to sea as Masters or Mates of foreign-going sailing ships.

Candidates may be examined at any port where Ordinary examinations are held upon filling up the form of application (Exn. 2) and paying the fee of Rs. 15. (See Appendix D.)

No fee, however, will be charged for this examination if it is taken at the same time as that at which a candidate is examined for any certificate of competency.

68. Voluntary Examination in Steam.—These examinations are provided for the purpose of giving Masters and Mates who are possessed of certificates of competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam-engine. They are conducted under the superintendence of the Port Officer at such times as he may appoint for the purpose.

The examination is open to any person who holds a Certificate of any grade in the foreign or home trade or as Master of his own pleasure yacht. Full particulars of the examination are given in Appendix H.

69. Examination in Steam: how to apply.—Candidates should fill up the form of application (Form Exn. 2) at the Port Office, pay the fee of Rs. 15 and deposit their certificates and testimonials with the Port Officer, who will inform them when and where to attend to be examined. The usual testimonials for sobriety and good conduct for at least the last 18 months preceding the date of application to be examined must be produced.

70. Examination in Steam: endorsement of certificate.—If the candidate passes, form Exn. 15, together with a written report of the examination, should be sent to the Port Officer and the candidate's certificate, together with the form Exn. 2, will be sent to the Local Government; the words "Certified to have passed in Steam," with the date and place of examination, will then be entered on the certificate and its duplicate, and the certificate will be sent to the Superintendent of the Mercantile Marine Office at the port named in the form Exn. 2, and will be delivered to the candidate in the usual manner.

The endorsement of a Master's or Mate's Certificate for "Steam" does not, however, imply that he is qualified to perform the duties of an Engineer.

71. Examination in Steam: failure.—If the candidate fails to pass his Certificate will be returned to him at once, but he may not present himself for re-examination until the expiration of three months from the date of failure.

72. Certificates of Service.—A person who has attained the rank of lieutenant in His Majesty's Navy or in His Majesty's Royal Indian Marine Service, is entitled to apply

for a certificate of service as Master of a foreign-going ship without examination. This certificate will not entitle the holder to go to sea as Master or Mate of a home-trade ship.

Certificate of service will be issued by the Board of Trade only. Applications for certificates of service of the Royal Indian Marine must be made on a printed form, Exn. 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine.

Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office on the printed form which may be obtained from that office.

Applications for certificates of service by officers of the Royal Navy on the active list must be made through their commanding officers, and applications from officers of the Royal Navy on half-pay must be made to the Secretary of the Admiralty, who in either case will forward the application to the Board of Trade.

73. Ambulance Certificates and Government Awards.—An officer in the Mercantile Marine who holds a certificate of proficiency in First Aid to the Injured from the St. John's or St. Andrew's Ambulance Association or some equivalent certificate, can have the fact endorsed on his certificate of competency provided the latter was issued before April 1st, 1908, if the two certificates are forwarded to the President of the Board of Examiners.

Recipients of Government awards can also have the fact stamped on their certificates of competency, if they submit evidence of the award together with their certificate in a similar manner.

CHAPTER III. .

RULES FOR ESTIMATING SEA SERVICE.

74. Sea service.—In these Regulations sea service is reckoned from the commencement to the termination of the voyage. The certificates of discharge for service in the foreign trade will generally be accepted as proof of sea service, but certificates of discharge for service in the home or coasting trade must always be sent to the Port Officer for verification. Port Officer and Examiners will be careful to see that these discharges have not been in any way tampered with, and will report any suspicious case to the Local Government.

For all certificates of competency as Master or Mate in the Mercantile Marine, the qualifying service usually required is service performed in ordinary trading vessels. While the Regulations provide for the acceptance in part of certain kinds of non-trading service (*e.g.*, that performed in fishing-boats, yachts, pilot vessels, etc.), non-trading service not specially provided for in the Regulations cannot be accepted as qualifying service unless it has been submitted to the Local Government and their sanction obtained.

75. Sea service for foreign-going certificates.—For foreign-going certificates the term "sea service" means, unless otherwise stated, service performed in foreign-going vessels.

76. Officers' service: Home Trade.—Service in a lower grade than First or Only Mate in the home or coasting trade will not be recognized as officers' service towards qualifying a candidate for examination for a foreign-going certificate.

77. Service under the Admiralty.—All service afloat in His Majesty's ships or in auxiliary supply ships or any other ships in attendance on the Fleet between August 4th 1914 and December 31st 1920 inclusive, will be accepted in full (subject to the ordinary conditions as laid down in these Regulations) as qualifying sea service for either Home Trade or Foreign-going certificate.

The Local Government cannot undertake to accept the whole or any definite proportion of service in the Royal Naval Reserve, which is not qualifying service in accordance with these Regulations, but they will be prepared to consider sympathetically an application for examination from a candidate who has been prevented by his service in the Royal Naval Reserve between August 4th 1914 and December 31st 1920 inclusive from complying fully with the requirements.

78. Service in the Army.—The Local Government is anxious that, so far as is reasonably possible, seamen or apprentices who served in the Army between August 4th 1914 and December 31st 1920 inclusive should not be hindered in their ordinary profession; and they are prepared to consider sympathetically any application to be examined by a candidate who has been prevented from complying fully with the Regulations owing to his service in the Army.

79. Officers and seamen interned abroad.—A portion of the time spent by officer and seamen interned abroad between August 4th 1914 and December 31st 1920 inclusive, will be accepted in lieu of a portion of the Qualifying sea service required to qualify them for examination for a certificate of competency. The amount of such time so allowed will be decided by the Port Officer.

80. Service in Home Trade.—For Home-Trade Passenger ship certificates service in the home or coasting trade is regarded as equivalent to service in the foreign trade; but for Foreign-going certificates it is regarded as only equivalent to two-thirds of the time served in the foreign trade, except in the case of Indian coasting voyages extending beyond a distance of 500 miles from the port of departure in vessels commanded by Masters holding foreign-going certificates, when such service will count as foreign voyages, and will be reckoned as full time; but the time spent in the port of departure or home port will not be allowed to count. In all cases the length of service is deemed to commence on the date of sailing from the port of departure or home port and to end on the date of arrival at the home port. Such service must be vouched for in the form laid down in Appendix M.

81. Certificate, meaning of.—By the word "certificate" is meant a certificate of competency granted by the Board of Trade under the Merchant Shipping Acts, or by the Government of British self-governing Dominion, Colony, or Possession, under an Order in Council issued in pursuance of the Merchant Shipping Acts.

A list of the Colonial certificates referred to will be found in Appendix L. They are of the same force as the corresponding certificates granted by the Board of Trade.

82. Colonial local certificates.—The holder of a Colonial certificate for foreign-going ships not granted under the Merchant Shipping Acts who desires to be examined for an Imperial certificate of the same grade, must prove that he has performed the amount of service required by these Regulations to entitle him to hold such a certificate. He must also produce satisfactory testimonials as to character for at least the last 12 months of sea service preceding his application to be examined.

83. Foreign-going certificates.—Where a foreign-going certificate is required in order to qualify a candidate for examination, the certificate may be either an Ordinary certificate, or a certificate for fore-and-aft rigged vessels, or a certificate for foreign-going steamships.

84. Pilot defined.—The term "pilot" in these Regulations (*see* rules 34 and 57 means a pilot who is employed in general pilotage, and holds a first class pilot's certificate from some competent authority authorising him to pilot vessels outside harbour and partially smooth water limits. A Hooghly Master pilot is for the purpose of this rule to be considered as a first class pilot.

85. Officer's service.—Officer's service to be recognised as qualifying for purposes of examination must be performed with the requisite certificate as specified in appendix J. The officer's service performed by men who have been duly promoted during the course of a voyage (*see* rule 89) who, in consequence of serving in vessels plying between ports abroad, have been unable to obtain the necessary certificates, may, however, be recognised, provided that it is in other respects satisfactory.

86. Foreign officers.—Foreign officers who wish to apply for a British certificate of competency must in all cases have performed their qualifying officer's service with the requisite British certificate and must comply with rule 3. The service may have been performed in foreign vessels if the candidate can produce satisfactory testimonials as to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British certificate of competency of the grade required by the Regulations (*see* rule 90).

87. In charge of a watch.—When service in charge of a watch in either the foreign or home trade is specified in the regulations, candidates for certificates of competency as First Mate must be able to prove that during eight months at least of their service they have kept full regular watch *during the whole voyage, i.e., from port to port*, which, if in the foreign trade, must amount to not less than 8 hours of each 24 hours' service. Where a candidate can prove eight months of such full service, service performed in cases where watches were doubled at any time during the voyage will be accepted as equivalent to half the same period of full watch-keeping service. No amount of occasional service will, by itself, be accepted as qualifying service. Candidates for certificates of competency as Master will be required to have served during the whole of the time specified by the Regulations, in full charge of a watch, and no service performed under the system of double watches, except as the senior officer, will be accepted as qualifying service for a certificate of this grade. Great care must be exercised by the Examiners and others in regard to such service and unless the candidate produces a clear and satisfactory testimonial specially setting forth the above facts, from the Master or owner of the vessel in which the service was performed, it must not be accepted.

88. Additional mates.—Service as additional or auxiliary First or Second mates in large foreign going vessels, when in both cases Third and Fourth Mates are also carried, will count as First Mate's or Second Mate's service, as the case may be, provided that the candidate was entered on the articles in one of these capacities, and that he produces the necessary certificate (*see* rule 87) showing that he was in charge of a watch or watches during the whole time claimed. (*See also* rule 9).

88. Promotion during voyage.—Whenever a man has, from any cause, been regularly promoted on the occurrence of a vacancy in the course of the voyage from the rank in which he first shipped, and such promotion, with the ground on which it has been made, is properly entered in the articles and in the Official Log Book, he will receive credit for his service in the higher grade for the period subsequent to his promotion.

90. Evidence as to Service in foreign vessels.—The testimonials of service of foreigners and of British officers and seamen serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged or by some other recognised official authority of that country, or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case will be decided on its own merits, and if the sufficiency of the proofs given appears to be at all doubtful, it must be referred to the Government for decision.

91. Auxiliary screw ships.—Service in vessels with auxiliary steam or motor power which use their propelling machinery only in calms or during light winds, is considered as service performed in sailing vessels.

92. Excursion steamers.—In the case of excursion steamers only such service as can be proved to have been performed at sea will be accepted.

93. Service as carpenter, sailmaker, cook, steward, etc.—Candidates whose service has been performed in capacities other than apprentice, midshipman, cadet, ordinary seaman or able seaman—*e.g.*, men who have served as carpenter, or sailmaker, or as cook in small vessels where cooking is only a part of a man's duty—will be required to satisfy the Port Officer that they have during the whole time claimed performed deck duties in addition to their own particular work, and that they have a good knowledge of seamanship. These facts may possibly be proved by the production of satisfactory certificates from the Masters with whom the candidate has served; but such service will only be accepted as equivalent to two-thirds of the time served as ordinary deck hand. Failing satisfactory evidence, the applicant will be required to perform additional service in the capacity of seaman. Service as cook (under other conditions than the above), or as steward, purser, or wireless operator will not be accepted.

94. Service as wireless operator.—If a candidate has been engaged on articles of agreement as seaman or in any seamen rating and has served both as a seaman and as a wireless operator two-thirds of such service may be counted as qualifying service.

If a candidate has been engaged on articles of agreement as a wireless operator and has served as such, one quarter of the service up to a maximum of twelve months may be counted as qualifying service.

95. Service in fishing or pilot vessels.—Service performed exclusively in trawlers and other deep sea-fishing vessels, or in pilot vessels, will not qualify a candidate for examination. He must in addition prove the following service:—

- (a) For a Foreign-going certificate, service for at least 18 months in an ordinary trading vessel in the foreign trade, or the equivalent period, 27 months, in the home or coasting trade.
- (b) For a Home-Trade Passenger Ship certificate, service for at least twelve months in an ordinary trading vessel in the foreign, home, or coasting trade.

96. Service in yachts.—Service in pleasure yachts will be accepted as qualifying service under the following conditions:—

- (a) It must in all cases be verified by satisfactory proofs, which must set forth clearly and in detail the nature and duration of the service claimed; and it must be distinctly understood that only actual sea service will be accepted, and that service in harbour or port is inadmissible.
- (b) Service in foreign-going yachts will be accepted in full; and service performed within Home-Trade limits in sailing yachts of not less than 50 tons net register or in steam yachts of not less than 80 tons gross register will be accepted in the proportion stated in rule 80; but candidates must also show (1) for a Foreign-going certificate, service for at least 18 months in an ordinary trading vessel in the foreign trade, or for the equivalent period, 27 months, in an ordinary trading vessel in the home or coasting trade; (2) for a Home-Trade Passenger ship certificate, service for at least 12 months in an ordinary trading vessel in the foreign, home, or coasting trade.
- (c) Service within Home-Trade limits in sailing yachts of 20 tons net register, or in steam yachts of 40 tons gross register, will be accepted towards qualifying a candidate for a foreign-going certificate as equivalent to half the same time served in the foreign trade, but no amount of such service shall count as more than two years' service in the foreign trade, and no such service shall count as officers' service to qualify candidates for foreign-going certificates.
- (d) Service within home-trade limits in sailing yachts of not less than 20 tons net register, or in steam yacht of not less than 40 tons gross register, will be

accepted at the ordinary rate as qualifying service for Home-Trade Passenger Ship certificates, but candidates must prove that they have in addition served for at least 12 months in an ordinary trading vessel in the foreign, home, or coasting trade.

- (c) Service within Home-Trade limits in sailing yachts of less than 30 tons net register, or in steam yachts of less than 40 tons gross register, will not be accepted as qualifying service for any class of certificate.

97. **Service in tugs, War Department vessels, etc.**—Service performed in tugs employed in Channel service or outside partially smooth water limits may be accepted as sea service for the purpose of qualifying a candidate for a Mate's or Master's certificate for Home-Trade Passenger Ships only.

Service performed in War Department vessels employed outside partially smooth water limits may be accepted as sea service to qualify a candidate for a Mate's or Master's certificate for home-trade passenger ships only. This service cannot be accepted towards qualifying a candidate for a Foreign-going certificate, unless there should be some very exceptional circumstances, when the case, together with all the candidate's papers, should be submitted to the Port Officer for his consideration.

98. **Service in dredgers.**—Service in steam hopper barges may, subject to the provisions of rule 100, be allowed to count towards qualifying a candidate for a Mate's certificate of competency for home-trade passenger ships provided the candidate can prove at least two years' service in an ordinary trading vessel in either the home, coasting, or foreign trade. Service in these steam hoppers will not be accepted as officer's service towards qualifying a candidate for a Master's certificate.

99. **Service in lightships or engine-room.**—Service in lightships or in an engine-room will not be accepted as sea service.

100. **Service on rivers.**—Service performed on rivers, no matter of what size, and service performed within smooth or partially smooth water limits will not be accepted.

Where any doubt whatever exists on this point, the candidate will be required to produce a certificate from the Master or owner of the vessel in which the service was performed, before the service can be accepted.

101. **Training ships.**—Time served on board a training ship will be allowed to count as equivalent to one-half the same time spent in service at sea, up to a limit of two years (i.e., no length of service will be allowed to count as more than one year at sea), provided that the candidate can produce a certificate from the Committee or Captain Superintendent that he has conducted himself creditably and passed a good examination in seamanship so far as it is practised in the training ship, as well as in other matters down to the time of his leaving the ship. Training ship service will not be regarded as equivalent to service in square-rigged vessels.

102. **School for nautical training.**—Time spent at a school for Nautical Training conducted on premises ashore may be allowed to count in some proportion, not exceeding one-half, as service at sea provided that—

- (a) the school is in receipt of a grant from the Board of Education under the Regulations for Schools of Nautical Training;
- (b) after an inspection by one of their officers the Board of Trade are satisfied that the school gives a training that justifies time spent there being reckoned as part of the necessary qualifying time for a certificate of competency;
- (c) the candidate produces a satisfactory certificate as regards conduct and proficiency from the authorities of the school on leaving it.

The proportion in which time spent at a school conducted on premises ashore will be accepted as qualifying under the above provisions will be decided after inspection by one of the Board's officers, but time spent at the school will never be counted as equivalent to more than one-half of the same time spent at sea, nor will it in any circumstances be taken as equivalent to more than one year at sea.

103. **Apprentices.**—The whole of the time claimed under indentures of apprenticeship will be accepted as actual sea service to qualify under rule 30 for a second Mate's certificate provided (a) that the indentures have not been cancelled through some fault of the candidate, but are endorsed by the owner or Master to whom he was bound to the effect that he has performed his service faithfully during the time he remained as apprentice; and (b) that the candidate has served at sea fourth-fifths of the time claimed, that is to say, has not spent more than one-fifth of the time in home ports.

In cases where an apprentice is qualified for examination before the expiration of his indentures, e.g., where he has had training ship or other sea service prior to being bound, which, together with his actual time as apprentice, makes up the required four-years, or where his indentures are for a period of more than four years, a letter from the owner or Master will be accepted in place of the endorsement referred to above.

In the event of the candidate being short of the required four-fifths of the time claimed as apprentice out of the United Kingdom, he will be required to show sufficient

additional sea service, either as seaman or junior officer, to make up the four-fifths of the time claimed.

104. Midshipmen and cadets.—The *whole* of the time served as midshipman or cadet under indentures will also be accepted subject to the *same* conditions as those laid down for apprentices; and the same will be the case even when not bound by indentures, provided that the service as midshipman or cadet has been continuous, and that on the date of the termination of the period of service claimed in this capacity the candidate was on articles of agreement, and that he is able to comply with the requirements laid down in the matter of serving or making up the four-fifths period at sea during the time claimed.

105. Lighthouse tenders.—Service performed in the sea-going steam vessels of the Trinity House, of the Commissioners of Northern Lighthouses, or of the Commissioners of Irish Lights, or in Irish and Scotch Fishery Cruisers, will be accepted as sea-service for the purpose of qualifying a candidate for examination for a home-trade passenger ship certificate; but for a foreign-going certificate a candidate must show in addition to this service calculated in accordance with rule 80 at least twelve months in an ordinary trading vessel. In order to qualify a candidate for an ordinary certificate, this twelve months must have been performed in a square-rigged sailing vessel. (See rule 28.)

106. Service in Royal Navy.—Officers of the Royal Navy are at liberty to apply for certificates of service and to be examined for certificates of competency in the Mercantile Marine, but the Lords Commissioners of the Admiralty have directed that the applications of officers on the active list should be made through their commanding officers, and that the applications of officers on half-pay should be made to the Secretary of the Admiralty, who, in either case, will forward the application to the Board of Trade. In the case of Royal Indian Marine officers, applications for certificates of service should be made on a printed form Exn. 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine. Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office on the printed form which may be obtained from that office.

The conditions on which certificates of service are issued are stated in rule 72.

107. Qualifications required of Naval and Indian Marine Officers.—Officers of the Royal Navy or of the Royal Indian Marine who wish to be examined for certificates of competency in the Mercantile Marine will be required to prove the following service; and if an officer wishes to obtain the ordinary certificate for foreign-going ships he must prove that at least twelve months of this required period was served under sail alone:—

- (a) For second Mate. The officer must prove four years' service at sea.
- (b) For only Mate. Five years' service at sea.
- (c) For First Mate or Master. The officer must prove that he has attained the rank of Lieutenant in the Royal Navy, or in the Royal Indian Marine.

108. Service in Royal Naval Reserve.—Lieutenants, sub-lieutenants, and acting sub-lieutenants of the Royal Naval Reserve who perform sea service on board His Majesty's ships, will, if accompanied by a good report, be allowed to count such service as if it had been performed in foreign-going merchants ships, and the service will rank according to the certificate of competency held by the candidate at the time.

The time spent in Periodical Training in the Royal Naval Reserve on board sea-going vessels of the Royal Navy, if accompanied by a good report, will be accepted in full, but in the case of midshipmen, will not count as officer's service. In the case of service in Harbour ships of the Royal or Colonial Navies, only one-half of the time will be accepted as sea service, and no such service must amount to more than one-fourth of the time required for the particular grade of certificate applied for.

CHAPTER IV.

CONDUCT OF THE EXAMINATION.

109. The examinations will begin at 10 A.M. on each day. A regular luncheon interval will be given each day between 1 P.M. and 2 P.M., the *viva voce* and practical parts of the examination being taken at such times as may be convenient. The time allotted for each written part of the examination for each grade of certificate will be as follows:—

SECOND MATE.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Essay 1 hour.

FIRST OR ONLY MATE.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Sumner problem, 2 hours; Meteorology paper, 1½ hours.

MASTER.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Meteorology paper, 1½ hours; Compass Deviation, ½ hour; Naval Architecture, 1½ hours; Essay, 2 hours.

HOME TRADE MATE.—Arithmetic paper, 2 hours ; Chart work, 3 hours.

HOME TRADE MASTER.—Arithmetic paper, 2 hours ; Chart work, 3 hours ; Nautical Astronomy and Deviation questions, 3 hours.

110. Candidates to be punctual.—Candidates are required to appear at the examination room punctually at the time appointed.

111. Loose paper and books removed.—Before commencing the examination the tables or desks must be cleared of all scraps of paper or books that are not used in the examination.

112. No strangers admitted.—No person will be allowed in the room during the examination other than those whose duties require them to be present.

No instructors will be allowed on the premises.

113. Books and papers strictly forbidden.—Candidates are prohibited from bringing into the examination room books or papers of any kind whatever. The slightest infringement of this rule will subject the offender to all the penalties of a failure, and he will not be allowed to present himself for re-examination for a period of three months.

114. All work to be shown.—No candidate will be allowed to work out his problems on waste paper, or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the candidate to all the penalties of a failure.

A sheet of blotting paper should be issued to each candidate with the first examination paper, and it must be returned to the examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the candidate in solving his problems, or for conveying information to other candidates.

115. Instruments, Books, etc., are provided.—All instruments, books, etc., necessary for use in the examinations are supplied by the Local Government.

116. Leaving room or building.—No candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will a candidate be allowed to leave the building while the examination is proceeding. Violation of this rule will subject the candidate to all the penalties of a failure.

117. Copying, etc., to be prevented.—Candidates should be so placed as to prevent one copying from the other, and no communication whatever between the candidates should be allowed.

118. Penalty for Copying, etc.—In the event of any candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving any information to another, or communicating in any way with another, during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination rooms he will subject himself to all the penalties of a failure and will not be allowed to be examined for a period of six months.

A candidate guilty of a second offence will not be allowed to be examined until 12 months have elapsed.

119. Injury to books, instrument, etc.—If a candidate defaces, blots, writes in, or otherwise injures any book or form belonging to the Local Government, the papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document or instruments and will be subjected to all the penalties of a failure.

120. Silence.—Perfect silence is to be preserved in the examination room.

121. Penalty for breach of rules.—Any candidate violating any of the regulations, or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination, or, if he has passed, to the detention of his certificate for such period as the Local Government may direct.

122. Examination papers: how to be dealt with.—The examination papers of candidates must in all cases be sent to the Port officer for his approval, together with the report of the examination on the forms Exn. 14 and Exn. 34.

123. Examination in Navigation.—The whole of the written portion of the examination will be taken on the marks system. The candidate will be furnished with sheets of the blank ruled paper (Exn. 30) which is supplied for the purpose, with instructions that he is to work or write only on one side of the paper, and to answer in a clear and legible hand each of the questions on the paper, and to commence each answer by writing down the number of the question to which it relates in the margin. Marks will be allotted for each question, and candidates will be required to obtain 75 per cent. of the total marks in order to pass for an Ordinary Certificate. Papers will not be handed back to candidates for correction.

124. Compass Deviation.—In answering questions on the tentative method of compass adjustment, the candidate will be tested by Beall's Compass Deviascope.

125. Barometer, tides, &c.—The examination on the barometer, thermometer, and hydrometer, prevailing winds and currents of the globe, trade, routes, and tides, will be conducted orally, and the questions asked by the examiner, which will be constantly varied, will be confined to and based on the information given in the text-books mentioned in Appendix K; candidates will be required to have a fair and intelligent knowledge of the contents of those books.

126. Sextant.—Particular attention should be paid to the sextant, the examination in which will be conducted orally and practically. Every candidate will be required to measure both vertical and horizontal angles, and will be examined practically as to his knowledge of the adjustments and the use of the various screws; he must be able to read correctly on and off the arc, and must also be able to find the index error both by the horizon and by the sun.

127. Corrections by tables.—The corrections by inspection of tables given in some of the works on navigation will not be allowed; every correction must appear on the papers of the candidates.

128. Degree of precision required.—Degree of precision required in the solution of the problems:—

(a) Candidates are expected to work their problems to the nearest half-minute of arc and to the nearest second in time.

(b) In interpolating for the correct deviation to be applied in solving the chart questions, it will usually be sufficient if the candidate works throughout with the nearest degree of deviation taken from the deviation card; and even in cases where the deviations may vary but little, the nearest half degree used throughout will be sufficiently precise. It is not necessary that the candidate should waste his time in solving the course to odd minutes, as is sometimes done.

(c) In calculating the correction to apply to soundings the candidate is not required to work to the exact inch, as is sometimes done. It will be sufficient if he brings his answer within half a foot or so of a precise result.

129. Candidates may use own method.—Candidates will be allowed to work out the various problems according to any method they have been accustomed to use, provided such methods correct in principle.

130. Supplementary viva voce.—Candidates will be examined orally as to their knowledge of all their written and worked papers.

131. No candidate to be examined twice in a week.—A candidate will not be allowed to undergo examination twice in the same week, unless, under very special and urgent circumstances, the Examiner should see fit to relax this rule. In that case a special set of problems should be supplied to the candidate.

EXAMINATION IN SIGNALLING.

The examination in Signalling should in all cases and for all grades commence with an examination in the International Code and be followed by an examination in the Allied Signal Manual, including Morse Flashing, Flag-waving and Semaphore.

International Code.—Examiners are recommended to frame the examination in the International Code of Signals, upon the instructions and illustrations given at the commencement of Parts I and II of the Signal Book. The information there given will be found sufficient to indicate all the characteristics of the Code.

By the form of the hoist, an observer can at sight understand the nature of any signal he sees flying; the examination should, therefore, tend to elicit a clear knowledge of all the distinctive features of the Code.

With this object in view, the examiners should question the candidates as to the distinguishing forms of the respective hoists, which will be indicated according as a burgee, a pennant, or a square flag is uppermost, and also with regard to the number of flags, and the position of the Code flag when used in the hoist; making the 1, 2, 3 and 4 flag signals with the flags supplied for the purpose, and varying the signals made, showing 2 and 3 flag signals, with and without the Code flag included, or a Geographical or a Vocabulary signal, the name of a merchant ship or of a ship of war.

As the two latter signals would not be found in the Signal Book, the candidate should know where to find them and how to look them out.

The candidate should:—(a) Be able to read a signal at sight, so far as to name the flags composing the hoist. (b) Know the use of the Code pennant and of the pennants C and D, "Yes" and "No," also of the two burgees A and B, and the square flags S and P, and the flags used to indicate cholera, plague, etc., on board, and the quarantine flag. (c) Be required to signal some word or words not included in the vocabulary of the Code either by letters or by the Spelling Table (page 516) or both. (d) Have a knowledge of the Distant Signals, and of their object, and the different modes of signalling therewith. (e) Know the special Morse signals indicated by certain letters as given on page 550. (f) Have a good knowledge of the Distress Signals and understand the penalty which may be incurred by their improper use.

The International Code is used on board His Majesty's ships, and it has been adopted by all the principal Maritime Powers for their public as well as merchant ships.

Allied Signal Manual.—Candidates will be expected to know the meaning of any or all of the single flag signals given therein, and the significations of the Pilot Jack when incorporated in a hoist. They should also be required to make or read from the Pilot Jack table a hoist given by the Examiner. Candidates need not be expected to commit the Pilot Jack table to memory but there should be no hesitation whatever in making or reading a signal. They should also know how to recognise any of the Special Signals given at the end of the Allied Signal Manual.

Morse Flashing Flagwaving and Semaphore.—Candidates for the voluntary examination in signalling will be required to attain a minimum speed of 12 words a minute in semaphore, 10 words a minute in Morse flashing and 6 words a minute in Morse flagwaving (the average length of a word being taken as 5 letters).

Candidates for other certificates will only be required to attain a speed of 6 words a minute in Morse flashing and 5 words a minute in Morse flagwaving and 10 words a minute in Semaphore.

In the ordinary examination, it will be sufficient if in Morse flashing a candidate is given a test card and a spelling message of 10 words, in Morse flagwaving a spelling message of 10 words, and in Semaphore a spelling message of 25 words.

In the voluntary examination in signalling, the Semaphore test will be a spelling message of 50 words.

The Morse flashing and flagwaving test will be a test message (see Allied Signal Manual) followed by a spelling message of 25 words.

The candidates must attain a degree of accuracy of at least 90 per cent. both in making and reading in each method, i.e., Flashing, Flagwaving and Semaphore.

In the examination in Morse flashing and flagwaving the candidate should be first required to make a test message, followed by a spelling message of 25 words. The examiner should then make a test message, followed by a spelling message of 25 words to be read by the candidate.

The same procedure must be observed in the Semaphore examination, except that, as a test message is not given, the candidate will be required to make a spelling message of 50 words and then to read a message of 50 words made by the Examiner. The Semaphore messages may be made either by hand flags or mechanical Semaphore or both at the discretion of the Examiner.

In the Morse flashing and flagwaving examination, marks will be allotted for the test message in the proportion of 50-75 of a mark for each correct letter (see table at back of test cards), and for the spelling message 2 marks for each correct word or group of figures. The candidate must for a pass gain an aggregate of at least 90 per cent. of the maximum marks in both spelling and test messages.

In the Semaphore examination 2 marks will be allotted for each correct word and 90 per cent. of the maximum must be obtained for a pass.

The spelling message is left to the discretion of the Examiner, and may be a passage from any book or newspaper in English. When the passage contains figures and the candidate does not choose to spell them out, the Examiner should see that the proper signs are made before and after the figures.

The message as read by the candidate should be taken down by another candidate where possible, otherwise by a clerk, or other person according as the Examiner may deem expedient.

Candidates should be thoroughly tested in the various signs and the procedure of calling up, sending and answering a signal, as laid down in the Allied Signal Manual, and this course should always be strictly adhered to.

Particular attention should be paid by Examiners to the accurate spacing of the Morse signs, and to the intervals between letters and words, both in flashing and flagwaving, and also to the correct making of the Semaphore signs. Any attempted increase of speed at the expense of accuracy should be discouraged.

The block letter test and spelling message as read by the candidate should be forwarded on the Form Exn. 19a, together with the percentage of marks allotted and report on the Form Exn. 19b to the Principal Examiner, with any remarks the Examiner may have to add with respect to the examination.

Note.—The International Code of Signals, with the Signal Letters of British Ships, is prepared by the Registrar-General of Shipping and Seamen, and may be obtained of the publishers, Messrs. Spottiswoode, Ballantyne & Co., 1, New Street Square, London, E.C. 4, and the principal booksellers at the various ports, price 5s.

The Official Mercantile Navy List and Maritime Directory may be obtained in like manner, price 12s.

The Allied Signal Manual may be obtained through any bookseller, or directly from His Majesty's Stationery Office at any of the addresses given on the title page of these Regulations, price 1s.

APPENDIX E.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

1. ORDER IN COUNCIL OF OCTOBER 13, 1910.

SCHEDULE I.

Preliminary.

These Rules shall be followed by all vessels upon the high seas and in all waters connected therewith navigable by sea-going vessels.

In the following Rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The word "steam vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these Rules, when he is not at anchor, or made fast to the shore or aground.

Rules concerning lights, etc.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

Article 1. The rules concerning lights shall be complied with in all weathers from sunset to sunrise and during such times no other lights which may be mistaken for the prescribed lights shall be exhibited.

Article 2. A steam vessel when under way shall carry:—

- (a) On or in front of the foremast, or if a vessel without a foremast, then in the fore part of the vessel, at a height above the hull, of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such a breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from light ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.
- (b) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.
- (c) On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.
- (d) The said green and red side-lights shall be fitted with in-board screens projecting at least 2 feet forward from the light, so as to prevent these lights from being seen across the bow.

- (c) A steam vessel when under way may carry an additional white light similar in construction to the light mentioned in subdivision (a). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

Article 3. A steam vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in Article 2 (a), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam vessel may carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

Article 4. (a) A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in Article 2 (a), where they can best be seen, and, if a steam vessel, in lieu of that light, two red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, two black balls or shapes each 2 feet in diameter.

(b) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in Article 2 (a), and if a steam vessel, in lieu of that light, three lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(c) The vessel referred to in this Article when not making way through the water, shall not carry the side-lights, but when making way shall carry them.

(d) The lights and shapes required to be shown by this Article are to be taken by other vessels as signals that the vessel showing them is not under command and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in Article 31.

Article 5. A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by Article 2 for a steam vessel under way, with the exception of the white lights mentioned therein, which they shall never carry.

Article 6. Whenever, as in the case of small vessels under way during the bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7. Steam vessels of less than 40, and vessels under oars or sails of less than 20 tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in Article 2 (a), (b) and (c) but if they do not carry them they shall be provided with the following lights:—

1. Steam vessels of less than 40 tons shall carry:—

(a) In the forepart of the vessel, or on or in front of the funnel, where it can best be seen, and at a height above the gunwale of not less than 9 feet a bright white light constructed and fixed as prescribed in Article 2 (a), and of such a character as to be visible at a distance of at least 2 miles.

(b) Green and red side-lights constructed and fixed as prescribed in Article 2 (b) and (c) and of such character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right ahead to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steamboats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision 1 (b).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to other vessel shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars or sail, shall have ready at hand a lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this Article shall not be obliged to carry the lights prescribed by Article 4 (a) and Article 11, last paragraph.

Article 8. Pilot-vessels, when engaged on their station on pilotage duty, shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes.

On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board, may show the white light instead of carrying it at the masthead and may, instead of the coloured lights above

mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

A steam pilot-vessel exclusively employed for the service of pilots licensed or certified by any pilotage authority or the Committee of any pilotage district, when engaged on her station on pilotage duty and not at anchor, shall, in addition to the lights required for all pilot boats, carry at a distance of eight feet below her white masthead light a red light visible all round the horizon and of such a character as to be visible on a dark night with a clear atmosphere at a distance of at least two miles, and also the coloured side-lights required to be carried by vessels when under way.

When engaged on her station on pilotage duty and at anchor she shall carry, in addition to the lights required for all pilot boats, the red light above mentioned, but not the coloured side lights.

Pilot-vessels, when not engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their tonnage.

Article 9.*† Fishing-vessels and fishing-boats, when under way and when not required by this Article to carry or show the lights herein-after specified, shall carry or show the lights prescribed for vessels of their tonnage under way.

(a) Open boats, by which it is to be understood boats not protected from the entry of sea water by means of a continuous deck, when engaged in any fishing at night with outlying tackle extending not more than 150 feet horizontally from the boat into the seaway shall carry one all-round white light.

Open boats, when fishing at night with outlying tackle extending more than 150 feet horizontally from the boat into the seaway, shall carry one all round white light, and in addition, on approaching or being approached by other vessels, shall show a second white light at least 3 feet below the first light and at a horizontal distance of at least 5 feet away from it in the direction in which the outlying tackle is attached.

(b)‡ Vessels and boats, except upon boats as defined in subdivision (a), when fishing with drift-nets shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so that the vertical distance between them shall be not less than 5 feet, and not more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon and to be visible at a distance of not less than 3 miles.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they however, not carry it, they shall show in the same position (in the direction of the net or gear) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(c) Vessels and boats, except open boats as defined in subdivision (a), when line-fishing with their lines out and attached to or hauling their liner, and when not at anchor or stationary within the meaning of subdivision (h), shall carry the same lights as vessels fishing with drift-nets. When shooting lines, or fishing with towing lines, they shall carry the lights prescribed for a steam or sailing vessel under way, respectively.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the lines) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(d) Vessels, when engaged in trawling, by which is meant the dragging of an apparatus along the bottom of the sea—

1. If steam vessels, shall carry, in the same position as the white light mentioned in Article 2 (a), a tricoloured lantern so constructed and fixed as to show a white light from right ahead to two points on each bow and a green light and a red light over an arc of the horizon from two points on each bow to two points abaft the beam on the starboard and port sides, respectively; and not less than 6 nor more than 12 feet below the tricoloured lantern a white light in a lantern, so constructed as to show a clear, uniform and unbroken light all round the horizon.
2. If sailing vessels, shall carry a white light in a lantern, so constructed as to show a clear, uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.

All lights mentioned in subdivision (d) 1 and 2 shall be visible at a distance of at least 2 miles.

(e) Oyster dredgers and other vessels fishing with dredge-nets shall carry and show the same lights as trawlers.

(f) Fishing-vessels and fishing-boats may at any time use a flare-up light in addition to the lights which they are by this Article required to carry and show, and they may also use working lights.

(g) Every fishing-vessel and every fishing-boat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile.

Every fishing-vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile, and shall exhibit a second light as provided for vessels of such length by Article 11.

Should any such vessel, whether under 150 feet in length, or of 150 feet in length or upwards, be attached to a net or other fishing gear, she shall on the approach of other vessels show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(h) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in daytime haul down the day-signal required by subdivision (k); at night show the light or lights prescribed for a vessel at anchor; and during fog, mist, falling snow, or

* This article does not apply to Chinese or Siamese vessels.

† The expression "Mediterranean Sea" contained in subdivisions (b) and (c) of this Article includes the Black Sea and the other adjacent inland seas in communication with it.

‡ Dutch vessels and boats when engaged in the "kol" or handline fishing will carry the lights prescribed for vessels fishing with drift-nets.

? Also, as regards Russian vessels, in the seas (excluding the Baltic) bordering the coasts of Russia.

heavy rain-storms make the signal prescribed for a vessel at anchor. [See subdivision (d), and the last paragraph of Article 15.]

(i) In fog, mist, falling snow, or heavy rain-storms, drift-net vessels attached to their nets, and vessels when trawling, dredging, or fishing with any kind of dredge-net, and vessels line-fishing with their lines out, shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute, make a blast; if steam vessels, with the whistle or siren, and if sailing vessels, with the fog-horn; each blast to be followed by ringing the bell. Fishing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the abovementioned signals; but if they do not, they shall make some other efficient sound signal at intervals of not more than one minute.

(k) All vessels or boats fishing with nets or lines or trawls, when under way, shall in daytime indicate their occupation, to an approaching vessel by displaying a basket or other efficient signal where it can best be seen. If vessels or boats at anchor have their gear out they shall, on the approach of other vessels, show the same signal on the side on which those vessels can pass.

The vessels required by this Article to carry or show the lights hereinbefore specified shall not be obliged to carry the lights prescribed by Article 4 (a), and the last paragraph of Article 11.

Article 10. A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this Article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, so as to be visible at a distance of at least 1 mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

Article 11. A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round the horizon at a distance of at least 1 mile.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40, feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of the vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fairway shall carry the above light or lights and the two red lights prescribed by Article 4 (a).

Article 12. Every vessel may, if necessary in order to attract attention, in addition to the lights which she is by these Rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

Article 13. Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorized by their respective Governments and duly registered and published.

Article 14. A steam vessel proceeding under sail only, but having her funnel up, shall carry in daytime, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

Sound-signals for Fog, etc.

Article 15. All signals prescribed by this Article for vessels under way shall be given:

1. By "steam vessels" on the whistle or siren.
2. By "sailing vessels and vessels towed" on the fog-horn.

The words "prolonged blast" used in this Article shall mean a blast of form 4 to 6 seconds' duration.

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

In fog, mist, falling snow or heavy rain-storms, whether by day or night, the signals described in this Article shall be used as follows, viz.:-

- (a) A steam vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.
- (b) A steam vessel under way, but stopped and having no way upon her, shall sound, at intervals of not more than 2 minutes, two prolonged blasts, with an interval of about 1 second between them.
- (c) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.
- (d) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.
- (e) A vessel, when towing a vessel employed in laying or in picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœuvre as required by these Rules, shall, instead of the signals prescribed in subdivisions (a) and (c) of this Article, at intervals of not more than 2 minutes, sound three blasts in succession, viz.: one prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the abovementioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.†

* In all cases where the rules require a bell to be used a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sea-going vessels.

† Dutch steam pilot-vessels, when engaged on their station on pilotage duty in fog, mist, falling snow, or heavy rain storms are required to make at intervals of 2 minutes at most one long blast with the siren, followed after 1 second by a long blast with the steam whistle and again after 1 second by a long blast on the siren. When not engaged on their station on pilotage duty, they make the same signals as other steamships.

Speed of ships to be Moderate in Fog, etc.

Article 16. Every vessel shall, in a fog, mist, falling snow or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel bearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.*Preliminary—Risk of Collision.*

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

Article 17. When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz. :—

- (a) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.
- (b) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.
- (c) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.
- (d) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.
- (e) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18. When two steam vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases to which each vessel is in such a position as to see both the side lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead or where both green and red lights are seen anywhere but ahead.

Article 19. When two steam vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 20. When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

Article 21. Where by any of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

Note.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (See Articles 27 and 29.)

Article 22. Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23. Every steam vessel which is directed by these Rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24. Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, i.e., in such a position, with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25. In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

Article 26. Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This Rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

Article 27. In obeying and construing these Rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

Sound Signals for Vessels in Sight of one Another.

Article 28. The words "short blast" used in this Article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorised or required by these Rules, shall indicate that course by the following signals on her whistle or siren, viz. :—

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

No Vessels under any circumstances to neglect proper Precautions.

Article 29. Nothing in these Rules shall exonerate any vessel, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

Article 30. Nothing in these Rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

*Distress Signals.**

Article 31. When a vessel is in distress and requires assistance* from other vessels or from the shore the following shall be the signals to be used or displayed by her, either together or separately, viz. :—

In the daytime—

1. A gun or other explosive signal fired at intervals of about a minute.
2. The International Code signal of distress indicated by NC.
3. †The distant signal, consisting of a square flag, having either above or below it a ball or any thing resembling a ball.
4. A continuous sounding with any fog-signal apparatus.

At night—

1. A gun or other explosive signal fired at intervals of about a minute.
2. Flames on the vessel (as from a burning tar-barrel, oil barrel, etc.).
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals.
4. A continuous sounding with any fog-signal apparatus.

AIDS TO MEMORY in four verses, by the late MR. THOMAS GRAY, C.B.

1. *Two Steam Ships meeting.*

**When both side lights you see ahead—
Port your helm and show your RED.**

2. *Two Steam Ships passing.*

**GREEN to GREEN—or, RED to RED—
Perfect safety—Go ahead!**

3. *Two Steam Ships crossing.*

Note.—This is the position of greatest danger: there is nothing for it but good look-out, caution and judgment.

**If to your starboard RED appear,
It is your duty to keep clear;
To act as judgment says is proper :—
To Port—or Starboard—Back,—or, Stop her.**

**But when upon your Port is seen
A Steamer's Starboard Light of GREEN
There's not so much for you to do,
For GREEN to Port keeps clear of you.**

4. *All ships must keep a good look-out, and Steam Ships must stop and go astern, if necessary.*

**Both in safety and in doubt
Always keep a good look-out;
In danger, with no room to turn,
Ease her, stop her, go astern.**

* If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of these signals of distress, except in the case of a vessel being in distress, he shall be liable to pay compensation for any labour undertaken, risk incurred, or loss sustained in consequence of that signal, having been supposed to be a signal of distress, and that compensation may, without prejudice to any other remedy be recovered in the same manner in which salvage is recoverable. [Merchant Shipping Act, 1894, section 484 (3).]

† A further distress signal is provided in the International Code of Signals. It is a distant signal consisting of a cone, point upwards, having either above it or below it a ball, or anything resembling a ball. This signal has not been sanctioned by Order in Council under the provisions of section 486 of the Merchant Shipping Act, 1894.

APPENDIX F.

SIGNALS TO BE MADE BY SHIP WANTING A PILOT.

In the daytime.—The following signals, numbered 1, 2, 3 and 4, when used or displayed together or separately, shall be deemed to be signals for a pilot in the daytime, viz. :—

1. To be hoisted at the fore, the Union Jack, having round it a white border, one-fifth of the breadth of the flag ; or
2. The International Code pilotage signal indicated by PT.
3. The International Code Flag S, with or without the Code Pennant over it.
4. The distant signal, consisting of a cone point upwards, having above it two balls or shapes resembling balls.

At night.—The following signals, numbered 1 and 2, when used or displayed together or separately, shall be deemed to be signals for a pilot at night, viz. :—

1. The pyrotechnic light, commonly known as a blue light, every fifteen minutes ; or
2. A bright white light, flashed or shown at short or frequent intervals just above the bulwarks, for about a minute at a time.

If a master of vessel uses or displays, or causes or permits any person under his authority to use or display, any of the pilot signals for any other purpose than that of summoning a pilot or uses or causes or permits any person under his authority to use any other signal for a pilot, he shall for each offence be liable to a fine not exceeding twenty pounds. [Merchant Shipping Act, 1894, section 615 (3).]

APPENDIX G.

DEVIATION OF THE COMPASS.

FOR MASTERS' CERTIFICATES FOR HOME TRADE PASSENGER SHIPS.

The candidate must answer in writing, on paper given him by the examiner, all the following questions, numbering his answers to correspond with the numbers of the questions : —

1. When taking a Meridian Altitude, how do you know when the sun is on the Meridian ; or in other words, when it is noon ?
2. How does the sun bear (*true and magnetic*) when on the meridian of an observer in these latitudes (Home Trade Limits) ?
3. What do you mean by deviation of the compass, and how is it caused ?
4. Having determined the deviation, how do you know when it is easterly and when westerly ?
5. Supposing the sun when on the meridian bore by your compass ——— what would be the deviation of that compass for the direction of the ship's head at the time, the variation given on the Chart being ——— ?
6. How could you find the deviation of your Compass when in port, or when sailing along a coast ?
7. Name some suitable terrestrial objects by which you could readily obtain the deviation of your Compass.
8. The bearing of two objects when in a line with each other was found on the Chart to be ——— magnetic ; but when brought in a line on board they bore ——— by your Compass ; required the deviation of your Compass for the direction of the ship's head at the time ?
9. What means are there for checking the deviation of your Compass by night ?
10. Supposing the North Star (*Polaris*) bore ——— by your Compass, what would be the deviation (approximately) of that Compass for the direction of the ship's head at the time supposing the variation given on the Chart to be ——— ?
11. Do you expect the deviation to change ? If so, state under what circumstances.
12. What is meant by the variation of the Compass, and what is the cause of it ?

APPENDIX H.

(See Rule 68.)

EXAMINATION OF A MASTER OR MATE IN STEAM.

The examination is for the most part *visu voce*, and extends to a general knowledge of the practical use and working of steam engines and boilers, and of the various valves, fittings, and pieces of machinery connected with them and of the way in which electric lighting is carried out on board ship.

Candidates must :—

- (a) Know the names and understand the uses of the various parts of engines and boilers, and their connecting pipes, valves, cocks, etc.
- (b) Have a thorough grasp of the construction of the steam engine and boiler, to enable them to understand the nature and importance of any defect which may be reported to them by the Chief Engineer.
- (c) Have a looking-on knowledge of what the principal repairs about engines, boilers and pipes are, and how these repairs are accomplished.
- (d) Be able to form an independent opinion as to a breakdown, and the consequent propriety or impropriety of proceeding under steam with temporarily repaired or defective machinery.

- (c) Understand how to estimate approximately the reduction of fuel required for reduced speed, and be able to satisfy themselves as to the sufficiency of the coal on board for the voyage.
- (f) Have an intelligent grasp of the general run of pipes and connections in the engine-room, the working of cocks, the opening and closing of cocks and valves, and know how mistakes of importance may be made and how best to guard against such mistakes.
- (g) Be capable of being left in charge of the feeding of a set of boilers, understand the working of the water gauge, and be able to guard against being misled by false indications of the gauge glass.
- (A) Understand the operations of blowing down and surfacing, the reasons for such practices and the danger which may result from the neglect of them in certain circumstances.

A Master or Mate presenting himself for examination in steam must be understood to have made up for his want of practical experience by reading about the steam engine. He ought, therefore, to show that he intelligently understands the rationale of its action. Under this head he should be able to state approximately the quantity of heat required in the formation of steam, the relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse-power measure is, what indicated horse-power is, what is the action of the slide valve, the course of the steam through the engine, the advantage of working expansively, and how the expansive action is shown by the indicator diagram.

He should know the uses of the various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull; how wires are jointed, insulated and cased; why it is desirable that they should be led along places which are dry and accessible; what "short circuiting" is and what are the causes which produce it; what is its danger in coal bunkers and petroleum carrying steamers; what are the uses of switches and cut-outs, and why it is so important to prevent short circuiting taking place.

Candidates will be required to give written answers to sixteen out of twenty questions taken from the Elementary Questions (printed in Appendix C of the Regulations relating to the Examination of Engineers: Exn. 1a) given on the sheets marked "Steam," or questions similar to these. These questions will be altered from time to time without notice. The twenty questions will not be difficult, theoretical, or book questions, but such as any man of ordinary capacity who has a fair amount of practical knowledge of the use of working of the steam-engine ought to answer.

Examiners will require all candidates to fill up a form, Exn. 15b, and they will forward it to the Chief Examiner of Engineers with the report of the examination.

Masters and Mates may cancel questions A, B and C but they should fill up the form for questions D, E, F and G, as evidence of their practical knowledge.

If a candidate refers to any book, paper or memorandum, or obtains information from another candidate or from any other persons during the examination, he will be treated as having failed, will forfeit his fee, and will not be allowed to be re-examined for a period of six months.

The Examiners will report, in the case of failure, the nature of the question or questions that decided the failure, or the point in the management of the engines or boilers in which the candidate was deficient.

Applicants for the voluntary examination need not necessarily have served on board steamships; all that is required is that they shall have a practical knowledge of the use and working of the steam engine.

Practical knowledge is best gained in the engine-room; and the examination of an officer who does not produce official evidence of service in steamships, and of experience of engines must necessarily be more searching than in the case of one who produces evidence of such service and experience.

The answers to the Elementary Questions are frequently given by candidates as learned by rote from a book. Candidates should, therefore, be asked such *visd voce* questions as will necessitate answers in different words, so as to discover whether they have the root of the matter in them.

A large part of the *visd voce* examination should be conducted on board a steamer, preferably one with which the candidate is unacquainted. He should be told to look about and try to find out the arrangement of the machinery without assistance, and the Examiner should be in the engine-room to see that this independent examination is properly carried out. When the candidate reports that he thinks he knows the arrangement, the Examiner will question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, etc.; also the dynamo, its field magnets, armature, commutators, brushes cables, etc. The candidate must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valves or cocks in connection therewith. It will not often be practicable for the candidate actually to work engines under steam, but he must satisfy the Examiner that he knows how to do so, and that he is aware of the precautions to be taken in regard to water in the cylinders, etc. It is most important that a candidate should show that, in the event of an accident depriving him of the assistance of Engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a Mate in steam is the same as that of a Master. The knowledge required has no reference to the Mate's position.

The Mate may be examined, but such examination implies that the Mate may one day be a Master, when the possession of the knowledge will be an advantage to him in the discharge of his duties.

APPENDIX I.

(See Rule 27.)

SIGHT TEST.

Details as to the conduct of the tests.

These tests must be conducted under the strict personal supervision of the Examiner. A careful record must be kept of all mistakes made by the candidate both in the form vision test and in the colour vision test.

Examiner must keep a record of all candidates passed by him for reference when required.

I.—FORM VISION TESTS.

1. **Form vision test to be passed first.**—The first test which the candidate is required to undergo is the test for form vision, and until he has passed this test he must not be allowed to proceed further with the examination.

2. **Apparatus used.**—The form vision test to be used for all candidates is that conducted on Snellens' principle by means of sheets of letters.

3. **Object of the test.**—The object of the form vision test is to determine whether the candidate can reach a sufficient standard of visual acuteness, or, in other words, to find out whether his eye sight is good or bad.

4. **Standard of vision required.**—Every candidate for a first certificate of competency will be required to possess normal vision. With the exceptions indicated below (see paragraph 8), every candidate for a second or higher certificate will be required to possess normal vision.

"Normal vision" is defined, for the purpose of these Regulations, as ability to read correctly nine of the twelve letters in the sixth line and eight of the fifteen letters in the seventh line of a test sheet placed in a good light at a distance of 16 feet from the eye.

The candidate will have the option of using either eye separately or both eyes together.

5. **Spectacles not allowed.**—During the examination form vision candidates must not be allowed to use spectacles or glasses of any kind, or any other artificial aid to vision.

6. **Method of testing.**—The test sheets should be hung on the wall, in a good light, but not in direct sunlight, of a height of five or six feet from the ground. The candidate should be placed at a distance of exactly 16 feet from the sheets, and exactly opposite them. This distance should be carefully measured, and should never in any circumstances be varied.

One of the sheets should then be exposed, and the candidate should be asked to read the letters on each sheet, beginning at the top and going downwards. Any mistakes which he makes should be carefully noted. If then it is found that he has read correctly at least nine letters in the sixth line and eight letters in the seventh line of a sheet, the candidate may be considered to have normal vision, and should be marked "passed" in the appropriate column of the form of application (Exr. 2 or Exn. 2A, as the case may be).

7. **Passing or failure.**—If at the conclusion of the test the candidate is found to reach the required standard, he may be considered to have passed, and the examiner should proceed to test him for colour vision. If the candidate fails to reach the standard required for the certificate entered for, he should be tested with at least four sheets, and the Examiner should fill in a Form, Exn. 17b, and should forward it, with any remarks he may wish to make, to the Principal Examiner for his instructions as to whether the candidate is to be regarded as passing or as failing in form vision.

8. **Lower standard required in certain cases.**—Candidate who are in possession of certificates obtained before January 1st, 1914, may be regarded as passing in form vision if they can read correctly with both eyes at least five of the eight letters in the fifth line of a test sheet.

Tests to be varied.—The Examiner should take care, by varying the order of the test sheets and by every other means in his power, to guard against the possibility of any deception on the part of the candidate.

10. **Result of examination to be reported.**—The result of every examination in form vision should be reported, in the case of a candidate for a certificate of competency, to Government on Form Exn. 2, and to the Port Officer on Form Exn. 14; and, in the case of a candidate for the sight tests only, to Government on Form Exn. 2A.

II.—COLOUR VISION TEST.

11. **Apparatus.**—A special lantern and a mirror have been provided for this test. The lantern should be placed directly in front of the mirror, so that the front part of the lantern is exactly ten feet from the mirror. Care should be taken that the lantern is properly placed, that is to say, the light reflected in the mirror must show clearly when viewed through the rectangular aperture on the left of the lantern. The examiner should always satisfy himself that these conditions are fulfilled before commencing the examination.

12. **Darkness adaptation.**—It is essential that a candidate should be kept in a room which is either completely or partially darkened for at least a quarter of an hour before he is required to undergo this test.

Before the examination commences the Examiner must satisfy himself that the room in which it is conducted is so darkened as to exclude all daylight.

13. **Method of testing.**—The lantern supplied for the examination is so constructed as to allow one large or two small lights to be visible, and is fitted with 12 glasses of three colours—red, white and green. At the commencement of the examination the Examiner should show to the candidate a series of lights through the large aperture, and should require him to name the colours as they appear to him. Care should be taken in showing the white light to emphasise the fact that the light is not a pure white. If a candidate makes a mistake of calling this light "red" a proper red light should be shown immediately after and the candidate's attention directed to the difference between the two.

After a series of lights through the large aperture has been shown, the examiner should make a complete circuit with the two small apertures, requiring the candidate to name the colours of each set of two lights from left to right. To prevent any possibility of the order in which the lights are arranged from being learnt, the Examiner should at least twice in each circuit go back a varying number of colours.

A records of any mistakes made with either the large aperture or the two smaller apertures should be kept on Form Exn. 17c in accordance with the instructions thereon.

14. Passing or failure.—If a candidate with either the large aperture or the two small apertures of the lantern mistakes red for green or green for red, he should be considered to have "failed" in Colour Vision.

If the only mistake made by the candidate with the lantern, is to call the white light "red," and if after his attention has been specially directed to the difference between the two he makes no further mistake of this nature, he should be considered to have passed in Colour Vision.

If a candidate makes any other mistake with the lantern, i.e., if he calls white "red" repeatedly or red "white" at all, or confuses green and white, his case should be reported to the Port Officer and he should be told that the decision as to whether he is passed or failed, or a further examination is necessary will be communicated to him in due course. Pending the receipt of the Port Officer's instructions such a candidate should only be allowed to proceed with the remainder of the examination for a certificate of competency on the express understanding that the latter examination will be cancelled in the event of failure in the Sight Tests.

15. Further examination and appeals.—If in the cases covered by the preceding paragraph the Port Officer decides that a further examination is necessary, arrangements will be made for a special examination to be held and the third class travelling expenses necessarily incurred by a candidate in attending such an examination will be paid by the Government together with a subsistence allowance at a rate which will be notified to the candidate, but which will not in any circumstances, exceed Rs. 4 for each day necessarily occupied in attending the examination. In these cases the above expenses will be paid whatever may be the result of the final examination.

If, however, on the report of the Examiner the Port Officer decides that the nature of the mistake made shows conclusively that a candidate is so colour blind as to be unfit to hold a certificate, the candidate shall be considered to have failed.

If during the progress of a special examination a candidate with defective Form Vision is found to be suffering from a permanent defect of the eyes such as to render him unfit for a sea career, the Port Officer may finally reject such candidate and he will not be allowed to be again examined in the Sight Test on any future occasion.

In cases where, upon the report of the Examiner, a candidate is failed by the Port Officer, as well as in the cases covered by paragraph 14, Government will be prepared to allow a candidate who is dissatisfied with this decision to appeal for a special examination, but Government will not pay the travelling expenses of any such candidate unless he is reported by the Special Examiners conducting the appeal examination to have passed.

III.—REPORTS.

16. The result of every test in form or colour vision should be reported to the Government on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the candidate is up for examination for a certificate of competency; and to the Government on the Form Exn. 2A, when the candidate is up for examination in vision only.

All cases of failure should also be reported to the Port Officer on Form Exn. 17B, to which should be attached Form Exn. 17C, containing the record of any mistakes made with the lantern.

Every report relating to such an examination must be signed by the Examiner who conducted the examination.

APPENDIX J.

TABLE SHOWING THE REQUIREMENTS AS TO SEA SERVICE NECESSARY TO QUALIFY FOR EXAMINATION FOR CERTIFICATES OF COMPETENCY.

Note.

A candidate for an Ordinary certificate of any grade who has not previously held an Ordinary certificate of a lower grade must prove that he has served twelve months in the foreign trade or eighteen months in the home or coasting trade in a square-rigged sailing vessel.

It must be clearly understood that the amount of service laid down in the Regulations for each grade of certificate of competency is the absolute minimum that can be accepted, and unless a candidate can show the full amount he must in no case be allowed up for examination.

NOTIFICATION.

No. 10217F.—*The 13th July 1922.*—In exercise of the powers conferred by rule 2 read with rule 5 of the Fundamental Rules, the Governor in Council is pleased to make the following rules regulating the grant of leave to Government servants of certain classes serving in the Survey Department, Bengal, and not being members of the office establishments located with the headquarters offices in Calcutta:—

1. These rules govern the grant of leave to Government servants of the following classes serving in the Survey Department, Bengal, and not being members of the office establishments located with the headquarters offices in Calcutta:—

- (a) Subordinates in superior service.
- (b) Menials attached to parties.

2. In addition to leave under Chapter X of the Fundamental Rules, departmental leave may be granted in the circumstances and on the conditions prescribed in rules 3 to 8.

3. (a) Departmental leave may not be granted except to a Government servant whose services are temporarily not required.

(b) It may be granted during the recess by the head of the party provided in the case of a menial that the officer granting the leave considers it desirable to re-employ the menial in the ensuing season.

(c) It may be granted at times other than the recess for not more than six months at a time by the Director of Surveys, Bengal, provided that the leave is granted in the interests of Government and not at the Government servant's own request; and leave so granted may, in special cases, be extended up to a maximum of one year in all. Leave on medical certificate should never be regarded as granted in the interests of Government.

4. Departmental leave may be granted on such leave salary, not exceeding half pay as the officer granting the leave may think fit. The leave salary is payable on return to duty after the expiration of leave and is not payable unless the Government servant returns to duty when required by his superior officer to do so. If, however, a Government servant dies while on departmental leave, his leave salary up to the date of his death will be paid to his heirs.

5. Departmental leave does not count as duty and will be debited to the leave account as though it were leave on half average pay.

6. Departmental leave may be granted when no leave is due. Departmental leave granted shall not be taken into account when calculating the maximum amount of leave admissible under Fundamental Rule 51(a).

7. Departmental leave may be combined with any other kind of leave which may be due.

8. When a Government servant subject to these rules holds a post in which the Director of Surveys, Bengal, considers that he is unlikely to be eligible for departmental leave in future, the Director of Surveys, Bengal, may by special order in writing declare that with effect from such date not being earlier than the Government servant's last return from departmental leave as the Director of Surveys, Bengal, may fix, any balance of leave at debit in the Government servant's leave account shall be cancelled. All leave earned after such date will be credited as due in the Government servant's leave account; and all leave taken after such date, including departmental leave, if any, will be debited in it.

ESTABLISHMENTS.

Simla, the 5th July 1922.

No. F.-267.—The following announcement of the Secretary of State, dated the 5th July 1922, is published for general information:—

The Secretary of State for India in Council has decided in consultation with the Government of India to make the following modifications in the orders announced in the Resolution of the Government of India of November the 8th last, relating to the conditions and terms upon which officers of the All-India Services may retire prematurely if they desire to do so in view of the change in the conditions of their employment brought about by the introduction of constitutional reforms.

1. The orders in question at present give members of the Services to which they relate who arrived in India for the first time on a date antecedent to January the 1st, 1920, an option of retiring which expires on March the 31st, 1924. The Secretary of State in Council has decided that the option, instead of expiring on March the 31st, 1924, shall continue in force and may be exercised until the action proposed to be taken on the Report of the Parliamentary Commission provided for by the Government of India Act is known, when the whole position will necessarily be reviewed.

2. It follows from this decision that the restriction that leave taken in anticipation of retirement must be completed before March the 31st, 1924, is also removed. Officers proposing to retire prematurely, provided they have submitted a definite application for permission to retire accompanied by the prescribed form of declaration, will ordinarily be allowed before their retirement takes effect to avail themselves of the full amount of leave which is due to them, and which may be granted to them at one time under the regulations for the time being in force and applicable to them otherwise than on medical certificate. A mere intimation of a possible intention to retire will not entitle an officer to have his application for leave dealt with under these rules.

An officer who has submitted an application to retire supported by a declaration and has obtained leave on the basis of it will not be permitted to cancel his application and to return to duty without the consent of his Local Government.

An officer on leave will be at liberty to submit an application to retire with the prescribed declaration and will then, unless his local Government considers his return necessary, be placed in the same position as an officer who has submitted his application in India.

3. The following form of declaration is substituted for that required by the present rules:—

"In view of the changes in the conditions of my service occasioned by the Government of India Act, 1919, I desire to retire on the terms set forth in the orders relating to premature retirement."

4. The Secretary of State in Council is prepared to permit officers retiring prematurely to take up other employment during the currency of

their leave preparatory to such retirement, subject to the following conditions :—

- (a) that if the proposed employment lies in India the specific consent of the Governor General in Council shall be obtained, and that if the proposed employment lies elsewhere than in India, the specific consent of the Secretary of State in Council shall be obtained; and
- (b) that a request for such permission must be accompanied by a definite request for permission to retire at the expiry of the leave.

The Governor General in Council or the Secretary of State in Council, as the case may be, will ordinarily grant permission to take up employment in these circumstances unless they consider the employment under consideration is such as could not with propriety be held by a person who is still in the service of the Crown in India, or alternately they may grant the desired permission in any such case subject to the stipulation that the acceptance of the employment in question will preclude the officer from withdrawing his request to retire and from returning to duty in India.

Even in cases where the stipulation abovementioned has not been made an officer who has been granted permission to take up such employment will not be permitted to withdraw his request for permission to retire and to return to duty in India without the specific consent of the Secretary of State in Council who will before giving such consent consult the Government of India and the local Government under which the officer was employed.

5. The Secretary of State in Council desires it to be understood that eligibility to retire on proportionate pension is not an absolute right which accrues on signature and presentation of the prescribed declaration. The Secretary of State reserves to himself the right to arrange for a combined pension under the ordinary rules on their final retirement in the case of officers who have obtained employment with his permission in other departments under the Crown or to withhold permission to retire or to permit retirement on reduced pension only, if circumstances exist which justify this course (*vide* article 470, Civil Service Regulations). Thus it would not be open to an officer against whom disciplinary proceedings were pending or in contemplation which might result in the reduction or the withholding of his pension to avoid such proceedings by an application for permission to retire on proportionate pension.

6. While the Secretary of State in Council reserves to himself the right to postpone the acceptance of the resignations of officers until suitable arrangements can be made for their replacement an officer who has been granted permission to retire under these orders will only be detained in India beyond the date on which he desires leave if his detention cannot be avoided without prejudice to the public interest. Ordinarily, the local Government under which the officer is employed will intimate when forwarding his application whether it considers that the Secretary of State in Council should exercise the right reserved to himself of postponing the acceptance of his resignation and if so for what period; but the local Government must be given discretion to determine with due regard to the public interest the date when leave granted under paragraph 2 will begin, even though the officer's resignation has been accepted by the Secretary of State.

7. The Secretary of State in Council intends as soon as possible to re-issue in the form of rules under section 96-B (2) and (3) of the Government of India Act, the orders issued on November the 8th last by the Government of India as already amended and as amended by the present announcement, and he takes this opportunity of announcing that the orders applicable to officers serving in other Provinces will apply to officers serving in Burma with effect from the date on which the notification of the Governor-General in Council dated October the 7th last constituting Burma a Governor's Province, is brought into operation.

No. F-505-I.—The following announcement by the Secretary of State dated the 5th July 1922, is published for general information :—

In continuation of the orders issued on November the 8th, 1921, regarding the premature retirement of officers of the Indian Services on proportionate pensions the Secretary of State in Council has decided that an officer

awarded a proportionate pension may be permitted to commute a portion of his pension not exceeding the third of the whole, unless in the opinion of the sanctioning authority (the local Government under which the officer was last employed for an officer who draws his pension directly or indirectly from Indian Treasuries and the High Commissioner in all other cases) there are exceptional reasons for refusing sanction to the application in whole or in part. If the sanctioning authority considers that such reasons exist the case will be referred for the decision of the Secretary of State in Council.

2. An officer in Europe desirous of commuting must make application, in writing, to the High Commissioner stating his desire so to commute and furnishing information as to his age and the reasons on which he bases his request. Permission to commute in sterling will not ordinarily be granted by the High Commissioner to an officer residing only temporarily out of India. Commutation in his case will ordinarily be dealt with by the authorities in India.

3. If the High Commissioner approves the commutation, the officer will be so informed, and his application will be referred to the Medical Board at the India Office.

4. The Board will require the officer to give such information as to his health and habits as is usual in the case of persons proposing to assure their lives in assurance companies, and he will be required to submit himself for personal examination by the Board at the India Office.

5. An officer residing in a Dominion or Colony (other than those whose accounts are adjusted directly with Indian Treasuries) and desirous of commuting will be required to follow a procedure similar to that in the case of an officer residing in Europe except that he will apply to the High Commissioner through the official from whom he draws his pension. If the application is approved the officer will be informed accordingly, and a special civil medical board will be assembled under the orders of the Local Colonial Government.

The Medical Board will report in the following form :—

" We have carefully examined _____ and are of opinion that he is (or is not) in good bodily health, and has (or has not) the prospect of an average duration of life. We therefore (or do not) recommend compliance with his application to be allowed to capitalise a portion of his pension."

In the case of impaired lives in which compliance with the officer's application is recommended, but with an addition of years of age, the following should be added :—" but as he is suffering _____, his age for purposes of commutation should be taken to be _____ years."

6. The basis of commutation, subject to an addition of years of age in the case of impaired lives, shall be the following table, the age of the officer being reckoned at the age he will attain on the birthday next succeeding the date upon which the capitalised sum will become payable :

NOTE 1.—These rates are subject to modification by the Secretary of State in Council from time to time.

NOTE 2.—In order to ensure payment at the rate shown for any specified age it is essential that an application to commute should reach the High Commissioner's office at least one month before the applicant reaches that age.

7. When the commutation has been sanctioned by the High Commissioner, the applicant will be informed accordingly, and will have the option of withdrawing his application within one week after receiving notice.

8. If the applicant does not withdraw his application within that period, the decision will be considered final, and the commutation of pension will become absolute, and payment will be made forthwith, the payment of the commuted pension thereupon ceasing.

9. The capitalised sum will be payable in India if the commutation is effected there; in all other cases it will be payable in England. When commutation of a sterling pension is effected in India by Officers residing temporarily in that country the commutation will be on the basis of the current rate of exchange, the rate adopted being the rate of exchange for telegraphic transfers from Calcutta on London on the 20th of the month preceding that in which the capitalised sum is paid.

10. The commutation of the proportionate pension of an officer who draws his pension directly or indirectly from Indian Treasuries will be governed by rules which the Government of India are issuing separately.

No. F-505-II.—With reference to rule 10 of the rules contained in the announcement of the Secretary of State which was published in the Notification of the Government of India in this Department No. F-505-I., dated the 5th July 1922, the rules governing the commutation of the proportionate pensions of pensioners who draw their pensions directly or indirectly from Indian Treasuries are herewith published for general information. The table for the commutation of pensions differs from the table in the Secretary of State's announcement because of the necessity of calculating it upon the basis of a life table applicable to India instead of to English conditions.

1. These rules apply only to pensioners drawing pensions directly or indirectly from Indian Treasuries. Other pensioners should apply to the India Office, when their applications will be considered on their merits.

NOTE.—The expression 'drawing their pensions indirectly from Indian Treasuries,' refers to case of pensioners residing in Ceylon, the Straits Settlements or the East African Protectorate and drawing their pensions from the local Treasuries, the amounts being subsequently adjusted in the books of the Accountant-General, Central Revenues.

2. Subject to the conditions stated in these rules, the local Governments are competent to sanction the commutation for a lump payment of a portion not exceeding one-third of the pension which has been or is about to be granted to any person.

3. An application for commutation submitted through an authority having power under the Memorial Rules to withhold a memorial may be withheld by such authority, if satisfied that it is not a case in which commutation should be allowed. The applicant's right of appeal will be regulated by the Memorial Rules.

4. In cases in which an applicant bases his request on circumstances which can only be verified by an authority other than the authority competent under rule 2 to sanction the commutation, the request should not be granted until the verification has been made.

5. The incidence of the commutation payment will in all cases follow that of the pension, and the commuted amount must be made payable at the treasury at which the pension is being or is to be drawn. If a pensioner who has obtained commutation of a portion of his pension transfers himself thereafter to another province, a note must be made on the Pension Payment Order as to the amount of pension which has been commuted.

6. Application for commutation shall be made in Form A appended to these rules.

7. The sanctioning authority shall satisfy itself:—

- (1) That the commutation will be to the distinct and permanent advantage of the pensioner or his family.
- (2) That the residue of pension which will be left after commutation is sufficient to maintain the pensioner in accordance with his station in life in retirement, due regard being had to the manner of application of the amount realised on commutation.

The sanctioning authority may also, at its discretion, require guarantees and impose such terms and safeguards as it may deem fit to ensure the prudent application of the amount payable in commutation if sanctioned.

8. (a) If on consideration of the facts stated in the application, the sanctioning authority decides to allow commutation, the applicant should be required to produce a certificate as to his expectation of life, from a medical officer who should be of not lower standing than a Civil Surgeon, District Medical Officer or Presidency Surgeon. The sanctioning authority may further, at its discretion, require a second medical opinion or direct the applicant to appear before a Medical Board.

(b) The certifying Surgeon or Board shall subject the applicant to a strict medical examination, requiring him to give such information as to his health and habits as is usual in the case of persons proposing to assure their lives in assurance companies, and will report in the following form:—

I ^I ~~We~~ have carefully examined.....and ^{am} ~~are~~ of opinion that he ^{is} ~~is~~ not in good bodily health and ^{has} ~~has not~~ the prospect of an average duration of life.

I ^I ~~We~~ therefore, ^{do} ~~do not~~ recommend compliance with his application to be allowed to capitalise a portion of his pension.

In the case of impaired lives in which compliance with the officer's application is recommended, but with an addition of years of age, the following should be added:

"but as he is suffering from..... his age, for purposes of commutation, should be taken to be.....years."

(c) The applicant should himself pay the medical officer's fee for examination except when a second medical opinion is required or the applicant is directed to appear before a Medical Board, in which case the examination will be made free of charge by medical officers at the request of the authority indicated in rule 2.

9. The lump sum payable on commutation will be the amount certified by the Audit Officer to be admissible according to the table of present values appended to these rules. This amount may be intimated, at the discretion of the sanctioning authority, to the applicant for definite acceptance or rejection, within a specified period before final sanction to commutation issues.

10. Commutation, when sanctioned, shall take effect from a date, to be named in the order, which should ordinarily be about one month later than the date of the order; and all calculations shall be made with reference to that date. Payment of the commuted portion of the pension will cease from the date specified and the sum payable on commutation will be paid on that date or as soon afterwards as possible.

Note.—In special cases the sanctioning authority may sanction the commutation with effect from an earlier date than that mentioned in this rule not preceding the date of the sanction, all calculations being made with reference to such earlier date.

11. A commutation once applied for, sanctioned, and given effect to cannot be rescinded, i.e., the portion of a pension commuted cannot be restored on refund of its capitalised value.

12. If a pensioner whose pension has been commuted dies on or after the date from which the commutation is to take effect under rule 10 but before he receives the commutation value this value is payable to his heirs.

15. In the case of a pensioner who is re-employed in Government service or in the service of a Local Fund and who commutes a portion of his pension before or after such re-employment, the amount which the pensioner is entitled to draw under the rules in Chapter XXI of the Civil Service Regulations shall be the amount to which he would have been entitled under those rules had there been no commutation, less the amount commuted.

3. *Application for commission.*—Every application for a commission will be made in manuscript and must be accompanied by evidence of possession of one of the qualifications detailed in paragraph 2.

Applications by persons serving on a temporary engagement in the Regular Army or enrolled in the Indian Territorial Force or Auxiliary Force, India, will be made to their Commanding Officer and in other cases will be submitted direct to the Officer Commanding the District.

On receipt of an application, the Officer Commanding the District will forward it with his remarks through the usual channel for the orders of the Commander-in-Chief.

4. *Liabilities for training and service.*—An officer of the Indian Territorial Force Medical Corps will be subject to the provisions of the Indian Territorial Force Act, 1920, and to the rules and regulations made thereunder.

5. *Posting.*—Officers will be borne on a general list and will be liable to be posted either in medical charge to a combatant unit of the Territorial Force or to a medical unit of that Force. When not so posted, they will be attached for preliminary and periodical training, under the orders and at the discretion of the Officer Commanding District, to Indian Station Hospitals or regular medical units: such attachment to be made, as far as circumstances permit, at such time and place as may be convenient to the officer concerned.

6. *Pay and allowances.*—Officers will be entitled when embodied for training or service to pay and allowances as for corresponding ranks of the Indian Medical Service.

7. *Promotion.*—Officers will be entitled to promotion up to the rank of Major if so recommended by the Officer Commanding the District, on the time scale in force for the time being for regular officers of the Indian Medical Service. All previous commissioned service as a medical officer will count towards promotion. Promotion to higher rank will be vested in the Commander-in-Chief.

8. *Attached Officers.*—An Officer of the Regular Army may be attached as a medical officer on the sanctioned establishment to a unit of the Indian Territorial Force at his own request under the orders of the Officer Commanding the District, and subject to the approval of the Local Government or administration concerned in the case of officer in civil employ.

An officer so attached will be entitled during the embodiment of the unit to detention allowance as for other attached officers.

10. *Constitution of units.*—The constitution of units of the Indian Territorial Force Medical Corps will be effected under paragraph 4 of the Indian Territorial Force Act, 1920, subject to the recommendation of the General Officer Commanding-in Chief Command. Proposals to form such units may be submitted by Officer Commanding District when the numbers of applicants warrant and there is a reasonable probability of the maintenance of the unit. Medical units will ordinarily consist of Field Ambulances of one or more Sections, or Indian Staging Sections; the establishments conforming generally to those laid down for the Regular Army.

11. *Liabilities of other ranks.*—Warrant officers and non-commissioned officers and men of the Indian Territorial Force Medical Corps will be liable to be embodied for service as laid down in the Indian Territorial Force Act, 1920, or for preliminary and periodically training under the orders of Officer Commanding District to an extent not exceeding that prescribed for the Indian Territorial Infantry. When so embodied they will be entitled to pay and allowances as for corresponding ranks of the Indian Hospital Corps. Units formed from Medical Colleges may be permitted under the orders of Officer Commanding District to undergo training in the manner and to the extent required of units of the U. T. C.

12. *Training.*—Preliminary and periodical training will be conducted under Regulations and subject to the general direction of the Director of Medical Services.

N.B.—All applications to join the Indian Territorial Force Medical Corps, whether for commissioned rank or otherwise, will, in the first place, be addressed to the "General Officer Commanding Presidency and Assam District, Shillong."

NOTIFICATION.

No. 5979J.—The 3rd August 1922.—In exercise of the power conferred by section 544 of the Code of Criminal Procedure, 1898 (Act V of 1898), read with section 21 of the General Clauses Act, 1897 (X of 1897), the Governor in Council has been pleased to make, with effect from the 16th August 1922 and in supersession of all previous rules on the subject, the following rules for regulating the payment on the part of Government of the expenses of complainants and witnesses in cases coming before the criminal courts.

II. The following notifications are hereby cancelled :—

Bengal Government notifications Nos. 3481J., dated the 25th June 1895 ; 510J., dated the 19th January 1904 ; 2149J., dated the 11th November 1907, and 1807J., dated the 5th June 1919.
Late Government of Eastern Bengal and Assam notifications Nos. 5528J., dated the 23rd December 1907, and 1791J., dated the 5th June 1917.

RULES.

1. The criminal courts are authorised to pay, at the rates by these rules, the expenses (a) of complainants or witnesses, whether for the prosecution or for the defence, (i) in cases in which the prosecution is instituted, or carried on by, or under the orders or with the sanction of Government, or of any Judge, Magistrate, or other public officer, or in which it shall appear to the presiding officer to be directly in furtherance of the interests of the public service, and (ii) in all cases entered in column 5 of Schedule II appended to the Code of Criminal Procedure as not bailable; and (b) of witnesses in all cases in which they are compelled by the Magistrate of his own motion to attend under the provisions of section 540 of the Code.

2. If a witness is summoned at the instance of the complainant or accused under section 214 of the Code his expenses shall not be withheld from him except on the ground of failure to do his duty as a witness when summoned.

3. (1) For the purpose of computing the expenses which the criminal courts are authorised to pay under these rules, complainants and witnesses shall be divided into two classes, namely :—

(a) labourers and ordinary cultivators and other persons of similar class, and

(b) persons of better position,

and the allowance shall ordinarily be a diet allowance, which may be paid to persons coming under class (b) on demand by them, and to persons in class (a) as a general rule.

(2) Such allowance shall be calculated for each class at daily rates within, and never exceeding, the maximum limit specified below opposite the territorial description of the court in which the complainant or witness appears :—

	Class (a). per diem. As.	Class (b). per diem. Rs.
I.—Courts in the districts of Nadia, Murshidabad, Jessore, Khulna and Midnapore.	7	5
II.—Courts in the rest of the districts in the Presidency.	8	5

Explanation.—The rates fixed in this rule are maxima, and are intended to meet the cost of meals for one day. In every case, therefore, the court should consider the circumstances of the individual and local conditions, and grant a reduced allowance in circumstances and localities where the actual expenses fall short of the maximum rate. In cases where no meal is taken away from home, or where only one meal is taken, no allowance or a reduced allowance, as the case may be, should be granted.

4. (1) Complainants and witnesses performing the journey or part of the journey by rail, steamer or tram may be allowed their actual fares each way according to the class by which persons of their rank and station in life would ordinarily travel. In determining the class by which a person

would ordinarily travel, regard should be had to the standard laid down in Section V of the Travelling Allowance Rules published in the *Calcutta Gazette* Extraordinary, December 23, 1921.

(2) Charges for toll at ferries will be allowed at the authorised rates to the extent to which they have actually been incurred.

(3) Other travelling expenses will be given only when the journey could not have been performed on foot, or in the case of persons whose age, position and habits of life render it impossible for them to walk.

In such cases, in addition to the allowances permitted by the preceding rules, travelling allowance shall be given at the following rates :—

(a) when the journey is by any kind of conveyance by road, the actual reasonable conveyance charge up to a maximum limit of 4 annas a mile ;

(b) in districts where the usual mode of travelling is by water, the actual expenses incurred for boat-hire up to a maximum of Rs. 2 a day.

(4) In hill districts, where it is customary for respectable persons to be accompanied by a man carrying their baggage, when such a person is summoned from a distance of more than five miles, he may be allowed the actual cost incurred for the hire of one coolie.

5. If the court is of opinion that any person following any trade or profession or engaged in any commercial undertaking has suffered substantial loss by reason of his attendance as a witness or complainant, he may be allowed, in addition to the diet money and travelling expenses permissible under the preceding rules, compensation according to circumstances.

6. Notwithstanding anything contained in these rules, Government servants when summoned to give evidence in their public capacity shall receive no payment from the court on account of travelling or halting allowance, but shall be entitled to draw such allowance under the Civil Service Regulations on producing a certificate of attendance granted by the court. Any fees or expenses which may be deposited in the court for the travelling and subsistence allowance of Government servants summoned to give evidence in their official capacity shall be credited to Government under the head "XVI-A—Miscellaneous fees and fines":

Provided that—

(i) when a Government servant is required to give evidence in his public capacity at a court situated not more than five miles from his headquarters, the court shall be authorised, where it considers it necessary, and notwithstanding anything contained in this rule, to pay the actual travelling expenses incurred ;

(ii) when the salary of the Government servant so summoned does not exceed Rs. 10 per mensem, he shall be paid his expenses by the court.

7. Notwithstanding anything contained in rules 3 and 4 whenever the court requires the expenses of a Government officer, summoned as witness in his official capacity, to be deposited in advance, the term "expenses" shall be interpreted to mean the travelling and halting allowances admissible under the Civil Service Regulations.

8. Government servants, when summoned to give evidence in their private capacity, shall be paid by the court such travelling allowance as is paid to persons of similar status in the manner provided under rules 3 and 4 of these rules, but they shall not be entitled to any diet allowance, nor shall they receive any travelling allowance under the Civil Service Regulations.

9. Officers will be held responsible that parties of witnesses are brought to court together, as far as possible, so as to save expense. The hire of more than one boat shall not be allowed in one case, unless the presiding officer is satisfied that the witnesses could not have arranged to come together.

10. The number of days for which diet allowance should be granted shall be determined by the officer ordering payment in each case.

11. For this purpose and for regulating the re-imbursement of tolls paid, a table shall be prepared and kept in each court showing the distance of each thana from the sadar station and subordinate stations, the number of intermediate ferries to be crossed, and the authorised rates of charges for tolls at each of these ferries, the existence or absence of road or waterways being also noted in the table.

12. These rules shall apply also to witnesses summoned to give evidence in enquiries held by civil courts under Chapter XXXV of the Code of Criminal Procedure.

CLASS I.—*Obligatory.*

1. English.
2. Geography and Indian History.
3. Mathematics (elementary).

All subjects of Class I must be taken up; not more than two of the subjects of Class II may be taken up.

The standard in subjects of Class I, except Mathematics, will be the Intermediate. The standard in Mathematics will be below the Intermediate as explained in Appendix I. The standard in the Optional subjects will be that of the B.A. (pass) of an Indian University. Candidates will be required to reach these standards in *each* of the four Obligatory subjects, but candidates who fail in only one Obligatory subject but make 6,000 marks or more in the aggregate will take their place in the list of qualified candidates according to the aggregate of the marks obtained.

3. *Place of examination.*—The examination will be conducted by the Central Advisory Board of Education. The centre of examination for candidates from Bengal will be Calcutta.

4. *Examination fee.*—A fee of Rs. 5 is required from all candidates on submission of their application to the District Officer for nomination. The fee payable must be paid by means of postage stamps of the specified amount affixed to the application. A further fee of Rs. 60 is to be paid by candidates chosen for admission to the examination.

5. *Conditions of eligibility.*—Every candidate must be an Indian British subject, and at the time of his birth his father must have been a natural-born Indian British subject. The decision of the Government of India as to whether a candidate satisfies these conditions shall be final. Candidates must, *without exception on any ground*, be above 21 and under 24 years of age on the 1st August 1922.

Every candidate must possess a degree.

Candidates must be of respectable antecedents and must submit references as to character and testimonials of good behaviour and of suitability for the Indian Police.

6. *Form of application.*—Application to compete at the examination must be made on a printed form to be obtained from the Chief Secretary to the Government of Bengal, Calcutta, or from any District Officer, and to be lodged with the necessary documents to the District Officer or Chairman, Calcutta Corporation (for candidates in Calcutta), not later than the 1st October 1922.

No applications received after that date can be considered.

7. *Canvassing.*—Any candidate attempting to canvas either by himself or through the agency of relatives, friends, patrons or officials will be disqualified.

8. *Medical examination.*—Those candidates who are successful in the literary examination will be required, shortly after the result of that examination is declared, to undergo a strict examination by a Medical Board* in Calcutta, as to their physique and capacity for active out-door work. Instructions as to the date and time of this examination will be issued to successful candidates by the Government of Bengal.

9. *Appointment of probationers.*—The Secretary of State will nominate as probationers such competitors as attain the highest aggregate of marks [provided that they obtain the minimum aggregate of 6,000 marks (see paragraph 2) and that they pass the medical examination and satisfy the requisite conditions in other respects].

10. *Riding.*—A knowledge of riding is not insisted on as an essential qualification before nomination. But probationers will be subjected to a riding test at the termination of their probationary period, failure to pass which will disqualify the candidate for confirmation in the service.

11. (a) *Uniform.*—It is an ordinary condition of appointment that a successful candidate shall provide himself, or be provided by his parents or guardians, with his uniform or the cost thereof. The Government of Bengal will make a contributory grant of Rs. 400 towards the cost of uniform.

(b) *Horse and saddlery.*—A successful candidate must, when required to do so by Government, provide himself with a suitable horse and saddlery at his own expense. The Government of Bengal will make to a newly-appointed officer a grant of a sum not exceeding Rs. 600 towards the cost of such horse and saddlery.

12. *Salary during probation.*—Probationers will receive initial pay of Rs. 325 a month. (See Appendix II.)

13. *Period of probation.*—Probationers will be required to qualify by passing the necessary departmental examinations [as well as the riding test (see rule II)] within two years of their selection.

14. *Liability of probationers to removal.*—Any probationer who may fail to pass the prescribed examinations within two years, or be found unfit for Police duties, will be liable to removal from the service.

15. *Promotion after probation.*—No probationer will be eligible for promotion, either acting or substantive, until he has passed the prescribed departmental examinations, including the riding test.

* With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates who may be physically unfit for the Police Service, it is suggested that, before any such preparation is begun, candidates be submitted to examination by the medical adviser of the family, or any other qualified medical practitioner, with regard to the points which are indicated in Appendix III.

It is to be understood that this private examination is merely suggested to lessen the chances of disappointment, and that it is by no means intended to take the place of, or to influence in any way, the official examination.

APPENDIX 1.

COMPULSORY MATHEMATICS.

The course is as follows :—

- (1) *Arithmetic*.—The whole of Arithmetic. (The use of Algebraical symbols and processes will be permitted.)
- (2) *Algebra*.—The four simple rules, Fractions, Greatest Common Measure, Least Common Multiple, Factors, Remainder Theorem, Proportion, Simple Equations of one or more unknown quantities with easy problems, Quadratic Equations, with easy problems and theory of Quadratic Equations, Graphs and their applications.

(Candidates should be provided with squared paper.)

- (3) *Geometry*.—Practical and Theoretical Geometry.

The questions on Practical Geometry will be set on the constructions contained in the annexed Schedule A, together with easy extensions of them. All figures should be drawn accurately, for which purpose every candidate should provide himself with a graduated scale, a pair of set squares, a protractor, a compass and a hard pencil.

The questions on Theoretical Geometry will consist of Theorems contained in the annexed Schedule B, together with easy extensions and deductions with numerical illustrations. Any proof of a proposition will be accepted which appears to the Examiners to form part of a systematic treatment of the subject; the order in which the Theorems are stated in Schedule B is not imposed as the sequence of their treatment. In the proof of the Theorems hypothetical constructions will be permitted.

(Candidates will be provided with squared paper.)

SCHEDULE A.

- Bisections of angles and of straight lines.
- Construction of perpendiculars to straight lines.
- Construction of an angle equal to a given angle.
- Construction of parallels to a given straight line.
- Simple cases of the construction from sufficient data of triangles and quadrilaterals.
- Division of straight lines into a given number of equal parts or into parts in any given proportions.
- Construction of a triangle equal in area to a given polygon.
- Construction of tangents to a circle and of common tangents to two circles.
- Simple cases of the construction of circles from sufficient data.
- Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.
- Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle.
- Construction of a square equal in area to a given polygon.

SCHEDULE B.

Angles at a Point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel Straight Lines.

When a straight line cuts two other straight lines, if —

- (i) a pair of alternate angles are equal, or
- (ii) a pair of corresponding angles are equal, or
- (iii) a pair of interior angles on the same side of the cutting line are together equal to two right angles, then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and rectilinear figures.

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order, the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by these sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other, each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal; each diagonal bisects the parallelogram and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Areas.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following Algebraical identities:—

$$k(a + b + c + \dots) = ka + kb + kc + \dots$$

$$(a + b)^2 = a^2 + 2ab + b^2.$$

$$(a - b)^2 = a^2 - 2ab + b^2.$$

$$a^2 - b^2 = (a + b)(a - b).$$

The square on a side of a triangle is greater than, equal to, or less than, the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right, or acute. The difference in the case of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line drawn from the centre of a circle to bisect a chord which is not the diameter is at right angles to the chord; conversely the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or in the same circle), (i) if two arcs subtend equal angles at the centres, they are equal; (ii) conversely, if two arcs are equal, they subtend equal angles at the centres.

In equal circles (or in the same circle), (i) if two chords are equal, they cut off equal arcs; (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords in a circle are equidistant from the centre; and the converse.

The tangents at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semi-circle is a right angle, the angle in a segment greater than a semi-circle is less than a right angle, and the angle in a segment less than a semi-circle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

If a straight line touch a circle and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

Proportion : Similar Triangles.

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally ; and the converse.

If two triangles are equiangular, their corresponding sides are proportional ; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these angles proportional, the triangles are similar.

In any right angle triangle the perpendicular to the hypotenuse from opposite vertex divides the triangle into two triangles which are similar to the whole triangle and to each other.

The internal bisector of an angle of a triangle divides the opposite sides internally in the ratio of the sides containing the angle and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

APPENDIX III.

EXTRACT FROM THE REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENTS UNDER THE GOVERNMENT OF INDIA.

[These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.]

N. B.—As regards candidates who have been wounded, a candidate who has lost the hand, fore-arm, or arm, or one leg below the knee, might be accepted, but the following classes of wounds must be regarded as disqualifications, viz., (1) Injury to head; (2) Loss of an eye; (3) Loss of leg above or through the knee.

GENERAL PHYSICAL REQUIREMENTS.

I.—A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

II.—In the examination of candidates the Medical Board will apply the following table of correlation of age, height and chest girth:—

Age.	CHEST—		
	Height, without shoes.	Girth, when expanded.	Range of expansion.
	Inches.	Inches.	Inches.

III.—*Measurement of height.*—A minimum height of 5 ft. 4 ins. is imposed. The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without

rigidity, and with the heels, calves, buttocks and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths.

IV.—*Measurement of chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached, it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. The maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and maximum will then be recorded.

XI.—A candidate must have no congenital malformation or defect likely to interfere with efficiency.

XII.—A candidate must not be the subject of chronic skin disease.

XIII.—Evidence of previous acute or chronic disease pointing to an impaired construction will disqualify.

NOTIFICATION.

Minister in charge : The Hon'ble Sir S. N. Banerji, Kt.

No. 2096 Medical.—The 12th August 1922.—The following draft of rules, which the Government of Bengal (Ministry of Local Self-Government) propose to make under clause (j) of sub-section (2) of section 101 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919), is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 16th August 1922, and any objections or suggestions received by the undersigned through district officers before that date will be duly considered.

Draft rules under the Village Self-Government Act, 1919, regulating the powers and duties of Union Boards in regard to dispensaries.

Opening and Closing of Dispensaries.

1. (1) A dispensary may be opened or taken over by a Union Board with the sanction of the District Board at a meeting, subject to the approval of the Commissioner, and on provision of the necessary funds in the annual budget. It may be closed by the same authority and with the same sanction.

When a dispensary is thus opened or closed by a Union Board, the fact shall be reported by the Civil Surgeon to the Surgeon-General, in order that the dispensary may be added to or struck off from the list in class III. No dispensary in class III in which a Government medical subordinate is employed shall however be closed without the sanction of the Government.

NOTE—Class III dispensaries are those which are acted in local authorities or guaranteed or maintained by local fund. The fact that such an institution is aided by private subscriptions or receives assistance from Government in the shape of part of the salary of the Medical Officer, grants of medicine or otherwise, should not be regarded as a reason for considering it as a local fund dispensary so long as its existence is ultimately dependent upon local funds.

2. (1) Whenever a dispensary is opened or taken over by a Union Board the fact shall be reported by the District Board to the Surgeon-General, through the Civil Surgeon of the district, with information on the following points—

- (a) The name of the dispensary, and the date of its opening or being taken over.
- (b) A copy of the proceedings of the District Board together with a copy of the Commissioner's order sanctioning the establishment or taking over of the dispensary.
- (c) Allotment made by the Union Board under the different heads of expenditure for the maintenance of the dispensary.
- (d) A list of the proposed equipment of the dispensary.
- (e) A plan of the building in which the dispensary is or will be located.
- (f) The authority with whom the ultimate responsibility for the maintenance of the dispensary rests.
- (g) The name and qualifications of the medical officer whom it is proposed to appoint as laid down in rule 6.

(2) No dispensary shall be removed from one place to another without the sanction of the District Board and without giving the Surgeon-General such previous information as will enable him to express an opinion and to sanction or reject the proposal.

3. Applications for grants from the Government in respect of any dispensary shall be submitted to the Government through the District Board, the Magistrate and the Commissioner.

Grants-in-aid by Government and local authorities

Provided that—

(i) the Government reserve the right to withdraw Government supervision or aid in any case, or at any time when it may seem desirable to do so.

(ii) no grant may be made by a District or Union Board in aid of any dispensary which has not received the recognition of the Government.

4. The Union Board or the Managing Committee vested with the management of a dispensary shall submit to the Medical Department, through the Civil Surgeon of the district such reports, returns and accounts as may be prescribed by the Surgeon-General from time to time. Such reports, returns and accounts shall be in such forms and be submitted on such dates as may be prescribed by him. All books, registers and forms which may be necessary for the preparation and submission of such reports, returns and accounts will be supplied by the Government free of cost.

5. Every dispensary is subject to inspection by the Commissioner, by the Civil authorities of the district, by Civil Surgeon, by the administrative officers of the Medical Department, the Chairman and Vice-Chairman of the District Board and any other person who may be generally or specially appointed by the Government, or the District Board for the purpose. No charge will be made for such inspection.

Appointment, leave, etc., of Medical Officers.

6. The Union Board or the Managing Committee vested with the control and administration of a dispensary shall be entitled to appoint their own medical officer subject to the following conditions, viz. :—

(a) that he is a registered medical practitioner unless the special permission of the Government is obtained to the appointment of an unregistered practitioner.

NOTE.—Applications for special permission should be made through the Civil Surgeon and the Surgeon-General and should be accompanied by a statement showing the name of the candidate, his age and full particulars about his general and medical education and his experience as a medical practitioner.

(b) that he is not a dismissed servant of the Government or is disqualified for his duties by age, infirmity or character;

6A. In the event of misconduct, insolvency, or professional incompetence by reason of age or otherwise having been proved against a medical officer appointed under rule 6 to the satisfaction of the Medical Department, he shall be removed from his charge on the requisition of the Surgeon-General.

7. Medical officers in charge of dispensaries shall be entitled to such leave as the Union Board or the Managing Committee may grant in accordance with the rules framed by the Union Board. The Union Board or the Managing Committee shall appoint a *locum tenens* duly qualified under rule 6, and shall provide for any expenditure that may be incurred on account of the pay of the medical officer while on leave, and the pay and travelling allowances, if any of his *locum tenens*. In no case shall leave be granted to a medical officer in charge of a dispensary without the cognizance of the Civil Surgeon of the district.

Medical Stores.

8. The indents for medical stores for a Union Board dispensary shall be drawn up by the medical officer of the dispensary and be checked and passed by the Civil Surgeon before the stores are purchased. Every such dispensary shall make its own arrangement for the supply of medicines and medical stores.

Management and Supervision.

9. The management of a dispensary shall be vested in the Union Board with which the ultimate responsibility for its maintenance rests, or in a Managing Committee appointed by the Union Board or Union Boards concerned. The Subdivisional Magistrate and the Subdivisional Medical Officer shall be *ex-officio*

members of the Committee of the subdivisional headquarters dispensary. The members shall be notified by the Commissioner in the *Calcutta Gazette*.

No employee of the dispensary shall be eligible for appointment as a member of the Managing Committee.

10 Every member of a Managing Committee appointed under rule 9 shall vacate his office when the term of office of the members of the Union Board or of the members of any of the Union Boards concerned by which the Committee is appointed expires.

Term of office of members of Managing Committee
Provided that the term of office of the members of the Committee shall be held to include any period which may elapse between its expiration and the date of the first meeting of a new Committee appointed to take its place.

Members of the Managing Committees appointed under rule 9 shall be eligible for reappointment after their term of three years expires.

11 A member of a Committee appointed under rule 9 may at any time be removed (i) by the District Board on the recommendations of Union Board or Union Boards concerned by which the Committee was appointed or (ii) for any of the reasons for which a member of the Union Board might be removed from office by the authority empowered by law to remove such member.

12. If any member of the Committee shall be unable to complete his full term of office, or shall avail himself of leave granted by the Committee, the vacancy caused by his resignation or removal or death or absence on leave may be filled up by the appointment of another person and the person so appointed shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office or during his absence on leave, as the case may be.

13 The Managing Committee shall elect two of their members to be the Chairman and the Vice-Chairman respectively, and may also elect another of their number as the Secretary.

14. The Managing Committee shall hold meetings at such intervals as may be necessary not less than once a quarter, to enable them to exercise an efficient scrutiny over the accounts and to enquire into all matters affecting the welfare of the dispensary. One-third of the total number of members shall form a quorum at any meeting.

15. The Managing Committee shall examine and pass the monthly accounts and shall keep a minute book in which their proceedings shall be recorded. The accounts shall, however, be passed regularly each month by the Chairman of the Managing Committee, or in his absence by the Vice-Chairman. The Managing Committee shall be responsible for the management of the funds of the dispensary. It shall be their duty to see that the guaranteed and promised subscriptions are regularly collected. After defraying the current expenses of the dispensary, the balance at the end of the month, if any, of the donations, subscriptions and interest realised by the Committee shall be deposited by them in the Post Office Savings Bank.

16. When the amount at credit of the dispensary exceeds Rs. 200, the Comptroller-General shall ordinarily be asked to invest the whole or part of it in Government securities, which shall be held in the custody of the Accountant-General, Bengal. The securities shall not be sold and the invested funds shall not be appropriated or used in any way without the sanction of the Government.

Nothing in this rule or in rule 15 shall prevent the Managing Committee from accepting as a contribution to the funds of the dispensary shares or a deposit in a Co-operative Central Bank or money offered with the express instruction that it shall be invested in such shares or shall be so deposited. Neither shall it be necessary to convert shares or deposits so received into Government securities. Contributions in the form of partly paid up shares with a liability attaching to them shall be carefully scrutinized and shall not be accepted without the previous orders of the Government.

17. (1) The Union Board or the Managing Committee shall annually prepare a budget estimate of the probable income and expenditure of the dispensary for the ensuing financial year arranged according to the headings given in annual statement H (B. (2) The investments will be accounted for by the Union Board direct. But all donations and subscriptions will be collected by the Managing Committee and paid into the Savings Bank at the Post Office. The account shall be in the name of the Chairman or the Secretary of the Committee. The whole amount collected shall be sent intact to the Savings Bank. Amounts required for expenditure may be withdrawn according to requirements, but there shall be in support of each payment a duly vouched bill passed by either the Chairman or the Secretary and the total expenditure under any head in the budget shall not be exceeded without the sanction of the Union Board. The Dispensary Committee shall maintain a subscription register in B. C. M. D. Form No. 6, in which the initials or signature of the donor must be taken. Interest allowed by the Post Office shall be shown against "Miscellaneous."

The medical officer shall from time to time present bills for recoupment of his imprest supported by payees' receipts. Payments met by withdrawal from the Savings Bank shall be entered on the payment side of the cash-book (B. C. M. D. Form No. 8), in the appropriate column.

Payments met out of the imprest shall be recorded in an Imprest Register (B. C. M. D. Form No. 60). Charges to be ultimately recouped by the Union Board shall be entered in the appropriate column under the heading "Payable by Union Board" and charges to be recouped by withdrawal from Savings Bank shall be entered in the appropriate column under the heading "Payable from Savings Bank." Whenever the imprest runs low and always at the end of the month, two recoupment bills will be prepared—one for payment by the Union Board and one for withdrawal from the Savings Bank. The sub-vouchers appertaining to the former shall be submitted with the bill to the Union Board. The totals under each column of the Imprest Register will be entered in the corresponding column of the cash-book when the recoupment bills are cashed.

(4) The Managing Committee shall, by the 4th of each month, submit a copy of the cash-book for the previous month, with all vouchers, to the Union Board for verification and incorporation in their accounts.

(5) The amount of monthly subscriptions guaranteed by the local people when starting the dispensary shall be paid to the Union Board every month. Simla, the 31st July 1922.

No. A.-73.—In exercise of the powers conferred by section 37 of the Indian Electricity Act, 1910 (IX of 1910), and in supersession of the Indian Electricity Rules, 1911, the Governor General in Council is pleased to make the following rules applicable to the whole of British India, to regulate the generation, transmission, supply, and use of energy, and generally to carry out the purposes and objects of the said Act.

RULES.

CHAPTER I.

PRELIMINARY.

1. These rules may be called the Indian Electricity Rules, 1922.

Definitions.

2. In these rules, unless there is anything repugnant in the subject or context,—

- (a) “the Act” means the Indian Electricity Act, 1910;
- (b) “ampere” means a unit of electric current, and is the unvarying electric current which, when passed through a solution of nitrate of silver in water, in accordance with the specification set out in Annexure I to these rules, deposits silver at the rate of 0.001118 of a gramme per second;
 such aforesaid unit is represented by the current which is passing in and through the coils of wire forming part of the instrument marked “Government of India Ampere Standard verified” when the suspended coil in its sighted position is exactly balanced by the force exerted by gravity in Calcutta on the iridio-platinum weight marked “A” forming part of the said instrument;
- (c) “apparatus” means electrical apparatus, and includes all apparatus, machines, and fittings in which conductors are used, or of which they form a part;
- (d) “authorised person” means a person authorised in writing by a licensee, a consumer or an owner, or by the owner, agent or manager of a mine, or by the agent of any company operating in an oil-field or by the owner of a drilled well in an oil-field or by a contractor for the time being under contract with a licensee, a consumer or an owner to carry out duties incidental to the generation, transformation, distribution or use of energy such person being competent for the purposes of the rule in which the term is used;
- (e) “bare” means not covered with insulating material;
- (f) “circuit” means an electrical circuit forming a system or branch of a system;
- (g) “concentric system” means a system in which a conductor, called the inner conductor, is insulated and in which the circuit is completed through one or more conductors, called the outer conductors, which are insulated from one another and are disposed over the insulation of, and more or less completely round, the inner conductor;

- (h) "conductor" means an electrical conductor arranged to be electrically connected to a system;
- (i) "covered with insulating material" means adequately covered with insulating material of such quality and thickness that there is no danger;
- (j) "cut-out" means any appliance for automatically interrupting the transmission of energy through any conductor when the current rises above a predetermined amount;
- (k) "danger" means danger to health or danger to life or limb from shock, burn, or other injury to persons, or from fire or explosion, attendant upon the generation, transformation, distribution, or use of energy;
- (l) "dead" means at, or about, earth potential, and disconnected from any live system: provided that apparatus separated from a live conductor by a spark gap shall not be considered dead;
- (m) "distributing licensee" means a licensee who obtains from another licensee a supply of energy in bulk for distribution;
- (n) "earthed" or "connected with earth" means connected with the general mass of earth in such manner as to ensure at all times an immediate discharge of energy without danger;
- (o) "earthing system" means an electrical system in which all the conductors are earthed;
- (p) "Electric Inspector" means an Inspector appointed under section 36 of the Act;
- (q) "electrician" means a person appointed in writing by the lessee or owner, agent or manager of electrical plant or apparatus, for the purpose of supervising the same, such person being over 21 years of age and competent for the purposes of the rules in which the term is used;
- (r) "Inspector of Mines" means an Inspector appointed under the Indian Mines Act, 1901;
- (s) "live" means electrically charged;
- (t) "metallic covering" means iron or steel armouring, with or without a lead or other metallic sheath as the conditions of the case may require, or an iron or steel pipe surrounding one or more conductors;
- (u) a meter of a type included in the specification herein referred to shall be deemed to be "correct" within the meaning of section 26 of the Act when its limits of error as certified by an Electric Inspector do not exceed those laid down in the "British Standard Specification for Electricity Meters: No. 37" dated 1919, and when it cannot register at no load; and any meter, maximum demand indicator or other apparatus for which there is for the time being no British Standard Specification shall be deemed to be "correct" within the meaning of section 26 of the Act when its limit of error, as certified by an Electric Inspector, does not exceed 3 per cent. above or below absolute accuracy at all loads in excess of one-tenth of full load and up to full load and when it cannot register at no load;
- (v) "ohm" means a unit of electric resistance, and is the resistance offered to an unvarying electric current by a column of mercury at the temperature of melting ice 14.4521 grammes in mass of a constant cross sectional area and of a length of 106.3 centimetres;
- such aforesaid unit is represented by the resistance between the terminals of the instrument marked "Government of India Ohm Standard verified" to the passage of an unvarying electric current when the coil of wire forming part of the aforesaid instrument and connected to the aforesaid terminals is in all parts at a temperature of 30°C.;
- (w) "open sparking" means sparking which owing to the lack of adequate provisions for preventing the ignition of inflammable gas external to the apparatus would ignite such inflammable gas;
- (x) "owner" means a person (other than a licensee) generating, supplying, transmitting or using energy to whom any of the provisions of Part III of the Act apply;

- (g) "owner", "agent" or "manager" of a mine are as defined in sections 3 (c), 3 (a) and 13 (1), respectively, of the Indian Mines Act, 1901;
- (z) "pressure" means the difference of electric potential measured in volts between any two conductors, or between any part of either conductor and the earth as read by a hot-wire or electrostatic voltmeter, and is said to be—
- (i) "low" where, under ordinary working conditions, it does not exceed 250 volts by an amount greater than five per cent. of the normal pressure where the energy is used;
 - (ii) "medium" where, under ordinary working conditions, it may exceed 250 volts, but does not exceed 650 volts by an amount greater than five per cent. of the normal pressure where the energy is used;
 - (iii) "high" where, under ordinary working conditions, it may exceed 650 volts;
- (aa) "switchgear" means switches, cut-outs or fuses, conductors, and other apparatus in connection therewith, used for the purpose of controlling the current or pressure in any system or part of a system;
- (bb) "system" means an electrical system in which all the conductors and apparatus are electrically connected to a common source of pressure;
- (cc) "use" of energy means the conversion of electrical energy into mechanical or chemical energy, heat, or light for the purpose of providing mechanical energy, electrolysis, heat, or light;
- (dd) "volt" means a unit of electro-motive force, and is the electric pressure which, when steadily applied to a conductor whose resistance is one ohm, will produce a current of one ampere; and
- (ee) "watt" means a unit of power, and is the energy expended per second by an unvarying electric current of one ampere under an electric pressure of one volt.

CHAPTER II.

ELECTRIC INSPECTORS.

3. No person shall be appointed an Electric Inspector unless—

- (a) he has had at least five years' practical experience in an electrical or mechanical engineering workshop or electric power station; and
- (b) after acquiring such experience, he has been regularly engaged for a period of not less than five years in the practice of electrical engineering;

Provided that the Governor General in Council or the Local Government, as the case may be, may appoint any person not so qualified, if in his or its opinion such person is otherwise fully qualified to exercise the powers and perform the functions of an Electric Inspector.

4. (1) Any Electric Inspector or any officer appointed to assist an Electric Inspector may enter, inspect and examine any place, carriage or vessel in which he has reason to believe any appliance or apparatus used in the generation, transmission, supply or use of energy to be, and may carry out tests thereon.

(2) Every licensee and owner shall afford at all times all reasonable facilities to any such Inspector or officer to make such examinations and tests as may be necessary to satisfy himself as to the due observance of the conditions of the licence (if any) and these rules.

(3) The licensee shall provide means for carrying out all tests prescribed by the rules for the appliances or apparatus used for the supply of electricity.

(4) An Electric Inspector may serve an order in the form set out in Annexure VIII to these rules, upon any licensee or owner, calling upon him to comply with any specified rule, and the person so served shall thereupon comply with the order within the period named therein.

5. (1) The fees set out in Annexure II to these rules shall be payable in respect of the services therein mentioned, where the tests are carried out by comparison with the Government of India Standards referred to in rule 2.

(2) The Governor General in Council or the Local Government, as the case may be, may levy such fees for testing and inspection and generally for the services of Electric Inspectors under the Act as he or it may from time to time, by general or special order, direct; and may, if he or it thinks fit, remit any fee or any portion thereof.

6. Where an Electric Inspector is called in to decide any difference or dispute, and where a fee for such service is recoverable, the Electric Inspector shall decide by whom such fee shall be payable.

CHAPTER IV.

CONDITIONS OF SUPPLY BY LICENSEE.

23. (1) A licensee shall not connect the conductors and fittings on a consumer's premises with his works unless he is reasonably satisfied that the connection will not, at the time of making the connection, cause a leakage from those conductors and fittings exceeding one five-thousandth part of the maximum supply demanded on the consumer's premises.

(2) Where a licensee declines to make a connection, in accordance with sub-rule (1), he shall serve upon the consumer a notice stating his reason for so declining.

24. (1) If at any time a licensee has reasons to believe that a leakage, likely injuriously to affect the use of energy by the licensee or by other persons, exists in the premises of a consumer, then the licensee may give the consumer reasonable notice in writing, that he desires to inspect and test such wires and fittings belonging to the consumer as form part of the circuit.

(2) If the consumer does not give all reasonable facilities for inspection and testing, or if a leakage from the consumer's conductors exceeding one five-thousandth part of the maximum supply demanded on the premises is discovered, the licensee may forthwith discontinue the supply of energy to the premises in question, giving immediate notice of the discontinuance to the consumer, and need not recommence the supply until the cause of the leakage has been removed.

25. (1) Where a consumer is dissatisfied with the action of a licensee under rule 23 or rule 24 in refusing or in discontinuing, or in not recommencing the supply of energy to his premises, the conductors and fittings of such consumer shall, on his application and on payment of the prescribed fee, be tested for the existence of leakage by an Electric Inspector or other officer appointed to assist an Electric Inspector.

(2) Any such test as is referred to in sub-rule (1) shall be carried out within forty-eight hours of the application to make the same or of the payment of the prescribed fee, whichever is later.

(3) If the Electric Inspector or other officer, as aforesaid, on testing finds that the leakage from the consumer's conductors is less than one five-thousandth part of the maximum supply demanded on the premises, the Electric Inspector shall notify the licensee, and the licensee shall, within twenty-four hours, commence or continue the supply of energy :

Provided that in this case the licensee shall refund the amount of the prescribed fee to the consumer.

(4) This rule shall be endorsed on every notice given under the provisions of rule 23 or rule 24.

26. Before commencing to supply energy to a consumer, a licensee shall declare to the consumer the pressure at which he undertakes to give the supply ; and the pressure shall not, without the written consent of the consumer or the previous sanction of the Local Government, vary therefrom by more than 5 per cent. in the case of low or medium pressure, or by more than 12½ per cent. in the case of high pressure.

27. Before commencing to supply energy to a consumer by means of an alternating current, a licensee shall declare to the consumer the frequency at which he undertakes to give the supply ; and the frequency shall not, without the written consent of the consumer or the previous sanction of the Local Government, vary therefrom by more than 4 per cent.

28. A consumer may, after giving not less than twenty-four hours' notice to the licensee, enter any testing station established by the licensee, in accordance with clause XIII of the Schedule to the Act, and may examine the records of the tests made therein ; and he may also take copies of or extracts from such records on payment to the licensee of a sum of one rupee for every such examination of a record covering a period of twenty-four hours or any part of twenty-four hours.

29. A licensee may affix a seal to any meter, maximum-demand indicator, or other apparatus placed upon a consumer's premises in accordance with section 26 of the Act, and to any cut-out placed upon a consumer's premises in accordance with rule 38, and no person shall break such seal without giving the licensee, and where the meter is the property of the consumer, the consumer also, not less than forty-eight hours' notice in writing.

30. Copies of plans or sections such as are referred to in clause XVI of the Schedule to the Act shall be supplied by the licensee to every applicant at a price not exceeding one rupee per square foot.

31. The point at which the supply of energy by a licensee to a consumer shall be deemed to commence shall—

(a) where the amount of energy supplied to a consumer or the electrical quantity contained in the supply is ascertained by meter, be in respect of a conductor from the service-line which passes through the meter, the point at which such conductor enters the meter, and in respect of a conductor from the service-line which does not pass through the meter, the point on such conductor nearest to the meter;

(b) where the amount of energy supplied to a consumer or the electrical quantity contained in the supply is not ascertained by meter, be the point at which the cut-out is inserted in the service-line by the licensee in accordance with rule 38.

Accounts and forms.

32. (1) Every licensee, unless exempted in accordance with section 26 of the Act, shall cause the accounts of his undertaking to be made up to the thirty-first day of December or the thirty-first day of March, at the option of such licensee, or to such other date as the Local Government may approve.

(2) Such licensee shall prepare and render an annual statement of his accounts in accordance with the provisions of the said section within a period of six months from such date as aforesaid, or such extended period as the Local Government may authorize after it is satisfied that the time allowed is insufficient owing to any cause not within the control of the licensee.

(3) The accounts shall be made up as far as circumstances permit in one or other of the prescribed forms set out in Annexures IV and V to these rules according as the licensee is or is not a local authority and may, at the option of the licensee, be rendered either in British Indian or in British sterling currency:

Provided that the Local Government may, by special or general order, direct that the accounts of any undertaking shall be made up in any form it may direct in such order.

33. Requisitions under sub-clause (4) of clause V or sub-clause (6) of clause VI, as the case may be, of the Schedule to the Act shall be made in the form set out in Annexure VI or Annexure VII to these rules.

CHAPTER V.

PRECAUTIONS FOR THE SAFETY OF THE PUBLIC.

General.

34. The rules in this Chapter shall, unless there is anything repugnant in the subject or context, apply to every licensee and to every owner.

35. Instructions, both in English and in the vernacular of the district, for the restoration of persons suffering from electric shock, shall be affixed in a conspicuous place in every generating station and sub-station and copies shall be obtainable from every Electric Inspector at a price to be fixed by the Local Government.

Precautions to be adopted by licensee.

36. A licensee shall adopt efficient means for protecting any portion of an electric supply-line or any support, guard-wire or bearer-wire of an electric supply-line which is exposed in such a position as to be liable to injury from lightning.

37. A licensee shall be responsible that all electric supply-lines, fittings and apparatus belonging to him, or under his control, which may be on a consumer's premises, are maintained in a safe condition, and shall take all due precautions to avoid risk of causing fire on such premises by reason of his electric supply-lines, fittings or apparatus or any defect therein.

38. A licensee shall insert a suitable cut-out in each service-line (other than an earthed neutral conductor or the earthed external conductor of a concentric cable) within a consumer's premises, in an accessible position as close as possible to the point of entry. Such cut-out shall be contained within an adequately enclosed fire-proof receptacle:

Provided that, where more than one consumer is supplied through a common service-line, each individual consumer (if he so requires) shall be given an independent cut-out at the point of junction to the common service.

39. The following provisions shall apply to service-lines and any apparatus in connection therewith on a consumer's premises, viz. :—

- (1) All such lines, being underground lines, and all apparatus in connection therewith placed by a licensee shall be so insulated and protected as to be secure under all ordinary conditions against electrical, mechanical, chemical, or other injury to the insulation, and against access of moisture.
- (2) From the point where any service-line enters a building, or becomes accessible without the aid of a ladder or other special appliance, such line and all apparatus in connection therewith, shall be insulated and protected in the manner prescribed by sub-rule (1).
- (3) Any metal forming part of the electric circuit of any such line shall not, unless connected with earth, be exposed so that it can be touched.

Precautions to be adopted by owners.

40. When an owner generates or uses energy—

- (1) where bare conductors are used in a building, they shall be inaccessible without the aid of a ladder or other special appliance and shall have switches provided for rendering them dead whenever necessary;
- (2) no repair of any part of any electrical apparatus shall be effected while the part is charged to a pressure exceeding low pressure, except by an authorised person;
- (3) the supply of energy to every vehicle, travelling crane or the like shall be efficiently controlled by a suitable switch, so that by its means all pressure can be cut off from all apparatus concerned and from any device in connection therewith;
- (4) trailing cables for portable motors shall be specially flexible, heavily insulated and protected from mechanical injury; where the protection is by means of metallic covering, the covering shall be in metallic connection with the frame of the motor.

Electric supply-lines and apparatus.

41. Every electric supply-line shall be maintained in a safe condition, as regards both electrical and mechanical condition, by the person to whom the same belongs.

42. All circuits and apparatus shall be so arranged by the person to whom the same belong that there shall be no danger of any part thereof becoming accidentally charged to any pressure beyond the limits of pressure for which it is intended.

Accidental charge

43. Where an electric supply-line crosses, or is in proximity to, any metallic substance, such precautions as an Electric Inspector may approve shall be taken by the licensee or the owner, as the case may be, against the possibility of the metallic substance becoming charged :

Crossing metallic substances

Provided that, where the electric supply-line was laid or erected previous to such metallic substance, the cost incurred in taking such precautions shall be refunded to the licensee or owner, as the case may be by the person to whom the metallic substance belongs.

44. Every electric supply-line (other than the earthed neutral conductor of any system or the earthed external conductor of a concentric cable) shall be protected, by the person to whom the same belongs, by a suitable cut-out.

Cut out

45. All metal casings or metallic coverings containing or protecting any electric supply-line or apparatus shall be connected with earth, by the person to whom the same belong, and shall be so joined and connected across all junction-boxes and other openings as to make good mechanical and electrical connection throughout their whole length :

Metal casings

Provided that this rule shall not apply to isolated wall tubes or to brackets, electrolights, standards, switch or fan regulator covers or other fittings (other than portable hand lamps in factories) where the supply is of low pressure.

46. The frame of every generator, stationary motor, and, so far as is practicable, portable motor, and the metallic parts (not intended as conductors) of all transformers and regulating or controlling apparatus connected with the supply, shall be connected with earth by two separate and distinct connections with earth.

48. In every distributing system in which there is a neutral conductor, where the pressure between the neutral conductor and an outer or phase conductor exceeds 125 volts, the neutral conductor shall be connected with earth by two separate and distinct connections with earth from the neutral bus-bar and in accordance with the following provisions, namely :—

Connection with earth of a multi wire system.

(a) the connection with earth of the neutral conductor shall be made at one point only on each distinct system, namely, at the generating station or sub-station, or both, as the case may be, and the insulation of the system shall be maintained at all other parts ;

(b) the current from the neutral conductor to earth shall, in the case of a licensee's direct current-distributing system, be continuously recorded, and, if at any time it exceeds one-thousandth part of the maximum supply current, steps shall immediately be taken to improve the insulation of the system ;

(c) the connection with earth referred to in clause (a) of rule 48 shall not be made by the aid of, nor shall it be in contact with any water-main, gas-main or similar main not belonging to the licensee or owner, as the case may be, except with the consent of the owner thereof and of the Electric Inspector ; a resistance, not exceeding 20 ohms, may be inserted between the neutral bus-bar and earth, and, if so inserted, it shall be of sufficient cross-sectional area to carry the current which may pass should an outer or phase conductor become disconnected.

- (d) the connection with earth shall not be removed except for the purpose of testing, in which case it shall be made good again as soon as such test is finished, and a record of any such disconnection shall be kept by the licensee or owner, as the case may be;

Provided that the earth connection shall not be removed, in a licensee's system, except between 1 A.M. and 3 A.M. or, in an owner's system, while the generator is in operation or energy is being used.

49. The neutral point of the star-winding of each distinct polyphase multi-wire system may be either connected with earth or insulated.

- (c) every conductor, unless only accessible to an authorised person, shall, be as far as is practicable, completely enclosed in a mechanically strong metal-casing or metallic covering, securely fastened throughout or fixed in such other manner as may be approved in writing by an Electric Inspector;
- (d) the supply to every apparatus shall be efficiently controlled by suitable linked switches, of requisite capacity to carry and break the current, in each conductor, placed near the apparatus in such a position as to be readily handled by the operator, so that by their means all pressure can be cut off from the apparatus concerned and from any device in connection therewith;
- (e) the word "CAUTION", both in English and in the vernacular, shall be affixed in a conspicuous position near every generator (being the property of an owner) and near every motor, and every controlling or regulating apparatus in connection with the same.

52. Where the conductors of a multi-wire system, between any of which there is medium or high pressure, are brought into a building for utilization at low pressure, the supply shall be delivered to two or more pairs of terminals, and the wiring from those terminals shall be kept separate and distinct. If in any such case two or more switches, terminals or cut-outs, between any of which there is a difference of pressure exceeding 250 volts, are fitted within reach of one another, all their live parts shall be accessible only to authorised persons.

55. (1) A high pressure supply shall not be delivered to any person, other than a distributing licensee, except with the approval in writing of an Electric Inspector, and subject to such conditions (if any) as such Inspector may think reasonable and proper in the circumstances, and the installation shall not be brought into use until it has been inspected by an Electric Inspector or other officer appointed to assist an Electric Inspector.

(2) Where energy is to be used by an owner at high pressure, the installation shall not be brought into use except with the approval in writing of an Electric Inspector and subject to such conditions (if any) as he may think reasonable and proper in the circumstances.

(3) When the position of a high pressure motor or other apparatus is changed, notice shall forthwith be given to the Electric Inspector showing the extent and nature of the change of position.

56. (1) A high pressure circuit, other than an aerial line, shall not be brought into use unless the insulation of every part thereof has withstood the continuous application, during one minute, in the case of every electric supply-line, machine, device or apparatus, of a pressure 100 per cent. greater than the maximum pressure to which it is intended to be subjected in use; and the licensee or owner, as the case may be, shall duly record the results of each test and shall forward the result to an Electric Inspector:

Provided, first, that the testing pressure shall in no case be less than 2,000 volts:

Provided, secondly, that an Electric Inspector may, if he thinks fit, accept the manufacturer's certified tests as complying with this rule:

Provided, thirdly, that, where the normal working pressure exceeds 6,600 volts, the testing pressure need not exceed the working pressure.

(2) A high pressure electric supply-line shall, during its use, continue in the sole charge of an authorised person.

(2) No such conductor shall be accessible, either from the ground or from any permanent structure, except by the aid of a ladder or other special appliance.

(3) Where permanent or temporary additions or alterations made in or upon any building or structure, subsequent to the erection of the aerial line, cause this rule to be infringed, the licensee or owner (as the case may be) shall so alter the said line as to comply with this rule, and may recover the reasonable cost of the work from the person responsible for making the said addition or alteration.

(4) Where an aerial line is on a consumer's or an owner's premises, the height from the ground or from any mineral or refuse dump, and from parts of buildings or structures to which persons have access shall (unless the conductors are adequately guarded) be not less than 15 feet or such greater height as may be necessary to prevent danger.

63. (1) Every aerial line (not being suspended from a dead bearer-wire and not being a trolley-wire) erected in, over, along or across any street or in any factory or mine shall be protected with a device approved by an Electric Inspector for rendering such line electrically harmless in case it breaks.

Safety device.

(2) Every such aerial line on a consumer's or an owner's premises shall, if the pressure exceeds the limits of low pressure, be similarly protected.

64. (1) (a) Where an aerial line crosses or is in proximity to (i) any telegraph wire, or (ii) an aerial line belonging to some other person, the licensee or owner (as the case may be) shall ensure that his aerial line is so protected as to guard against the possibility of it coming into contact with the telegraph wire or other aerial line.

(b) Within twenty-one days of receiving notice that a new telegraph wire or aerial line is, or is about to be, erected in proximity to his aerial line, the licensee or owner (as the case may be) shall effect the protection referred to in clause (a).

(c) Where the licensee or owner (as the case may be) erects a new aerial line in proximity to any telegraph wire, or to any aerial line not belonging to him, he shall not bring the same into use until he has complied with clause (a).

(d) In all cases referred to in the preceding sub-rules the protection shall be carried out at the expense of the person whose line is last erected and to the satisfaction of the Electric Inspector.

(e) Where lines cross each other, the crossing shall be made in a direction as nearly at right angles as the nature of the case admits.

(f) All guarding arrangements should ordinarily be erected on the posts of the owners or licensees who shall, in that case, be responsible for their efficient maintenance.

- (c) The pressure shall be switched off the apparatus forthwith if open sparking occurs, and during the whole time that examination or adjustment disclosing parts liable to open sparking is being made. The pressure shall not be switched on again until the apparatus has been examined by the electrician or one of his duly appointed assistants and the defect (if any) has been remedied or the adjustment made.
- (d) Every electric lamp shall be enclosed in an air-tight fitting, and the lamp globe itself shall be hermetically sealed.
- (e) A safety lamp shall be provided and kept continually burning near each motor when working and, should the appearance of the flame of such safety lamp indicate the presence of inflammable gas, all pressure shall immediately be cut off from apparatus in the vicinity thereof and the matter shall be reported forthwith to an official of the mine.

(2) If at any time in any place in such mine the percentage of inflammable gas in the general body of the air is found to exceed one and a quarter, the supply of energy shall at once be cut off from all cables and apparatus in that place and shall not be recontinued so long as the percentage of inflammable gas exceeds that amount.

WESTERN BENGAL.

LIST A.

List of English and Vernacular Text-books approved for all classes of Government and recognised High and Middle English Schools in Burdwan and Presidency Division of Bengal for the year 1923.

English Literature and Grammar.

For the books recommended by the University of Calcutta as indicating the standard of the Matriculation Examination in English, Head Masters are referred to the University Calendar. It should be noted that these books are intended only to indicate the standard expected of pupils on the completion of the high school course. These books are not suitable for such junior classes as III and IV, and, if used, they should be confined to the last year of study.

"England and India" (Longmans, Green & Co.) deals with the British Empire in the East, and explains the work done by the British Government in and for India. It is an advanced supplementary reader for senior pupils and teachers. For knowledge of the war a book like Nelson Fraser's "The World at War" (Oxford University Press) is of value.

Geography.

For use in the Upper Classes of High Schools in Bengal.

The teaching of this subject, by whatever method is adopted, must in every case be supplemented by the use of maps, charts and pictures. Teachers should consult the "Teachers' List" and apply to leading publishers for their lists, as these are now comprehensive and specially adapted to the needs of Indian schools. Such pictures as "Scenes from other lands" (Macmillan) are suitable for school work, are interesting to children and bring brightness and colour to the class-room. Head Masters are requested to see that all the school maps and pictures are on view every day and not stored in office-rooms.
